## Notice from Hualapai Tribal Forestry

By Charles A. Murphy

I have discovered an area (about 1 mile in on the Twenty Pines Rd.) where seven large yellowpine snags (dead trees) have been cut down and three medium size blackjacks. These are ponderosa pine trees which are illegal to cut - live or dead without a permit or contract. In fact, you cannot even get a permit for cutting standing dead ponderosa trees as these are valuable wildlife trees. These trees are home to various cavity nesting birds which keep the insects at endemic levels. Without them, insects such as bark beetles would grow to epidemic levels and start killing live healthy trees. One reason why the Hualapai are blessed with such a healthy forest is because of the retention of numerous dead standing ponderosa pine trees.

Illegal cutting of these snags reduce suitable habitat for these cavity nesting birds and negatively impacts the function of these trees in the ecosystem. My estimate is that 3-6 pick-up loads of fuelwood was taken, but why did they fall so many trees — there are still at least 10 loads of material laying on the ground as complete waste. I will continue to investigate who did this to stop this type of activity and have notified the Game and Fish Rangers and our Natural Resources Enforcement Officer.

"I will continue to investigate who did this to stop this type of activity."

### **Special Thanks!**

To Melvin Hunter Jr., Vonda Beecher and Alvin and Cydnie Crook, for speaking to our youth about attitude, sacrifice and making smart decisions. These people were chosen because they are residents and/or tribal members and have an inspiring story to tell. We must remember that some of our best role models and speakers for our youth are actual tribal members and residents of Peach Springs! The Peach Springs High School Dropout rate is at a very critical level, and

with these very special people we can make a difference! Remember these students are the future leaders of the Hualapai and Native communities!

Thank You!

### Fire and Aviation Management

There are many challenges in managing wildland fire and fuels in a fire-adapted ecosystem.

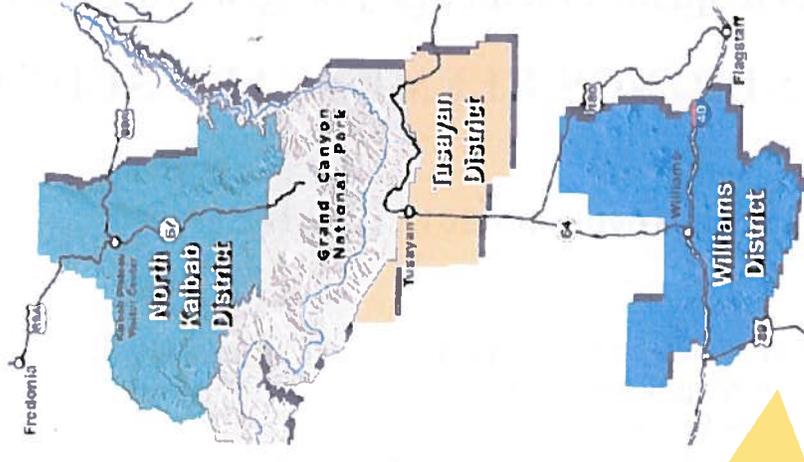

The Fire and Aviation Program requires well-maintained, fire-ready equipment and highly skilled personnel working in a variety of positions to achieve land management objectives. These objectives include returning fire to a fire-adapted ecosystem, reducing hazardous fuels and improving forest health. We work with our federal, state, local and international cooperators in achieving these goals.

### High Expectations for Academic Success at Every Age

Help build your child's vocabulary by commenting on things that your child finds interesting during play time or a trip to the grocery store.

Encourage enthusiasm for learning by helping your child to explore and discover how things work.

Help your child learn shapes, colors, and names of objects by pointing to objects and asking him/her to name and describe them.

Read to your child every day, no matter how young they might be. As they get older, ask what their favorite part of the story was and "what do you think will happen next?" or "How would you feel if that happened to you?"

Set a "no excuses" high school graduation expectation and start talking to Your student about the importance of postsecondary education and different types of careers.

## Vivian's GED Corner

### Vivian's GED Corner

A GED testing schedule has been made by Brenda Hucker, Testing Coordinator at Mohave Community College.

The new schedule will cover the last 3 months of 2013. I remind the community that the GED tests will be re-written starting January 1, 2014.

If you have taken 1 or more test(s), I encourage you to call (928-769-2200) or see me at the Hualapai Training Center to complete the 5 tests which are Science, Social Studies, Math, Writing and Reading.

If you have taken 1 or more test(s) and choose not to complete all 5, the test(s) you have taken will disappear starting January 1, 2014.

Our community has seen 6 individuals receive their GED!!!! Join this group of individuals in our community, who were successful in their education!

I offer my help so you can finish your studies for a GED test(s). Class is held Monday - Friday 1:00 - 4:00 p.m.

The General Education Diploma (GED) will go through changes starting January 2014.

- All tests will be taken on a computer at Mohave Community College.
- The tests will reflect what a Senior in High School is required to know for graduation.
- The testing fee will increase. At this time, there is no dollar amount to pass on for information.

A student will need to pass the following subjects with a score of at least **410**.

Science  
Social Studies  
Math  
Reading  
Writing

With all 5 tests, you need to have an average of **450**.

**An example is a student receives the following scores on the 5 tests:**

Science	470
Social Studies	460
Math	430
Reading	450
Writing	450

The students' total score equals 2,260. The total 2,260 is divided by 5 tests and the average equals 452.

This shows that each test was passed as the student received over the **410** required for each test and the average is over the 450 for all 5 tests.

#### **Another example that is important:**

If a student has passed 3 of the 5 tests and chooses not to continue taking the 2 remaining tests in January 2014, the 3 tests this student passed will disappear AND the student will have to start taking all 5 tests again in 2014.

- If you are an enrolled Hualapai tribal members, the Training Center has funds to pay for the test fee.
- Vivian Parker continues to hold class daily, Monday - Friday from 1:00 p.m. - 4:00 p.m. at the Training Center.
- The Training Center is also open Monday - Thursday from 5:00 p.m. to 6:00 p.m. for help with the GED, online high school or tutoring.

Please call Vivian Parker at 928-769-2200, if you have any questions.

To the Hualapai Community/tribe:

I would like to send the community/tribe a sincere **"Thank you"** for all the food donations, hotel lodging, cancelling of a tribal council retreat, love and support during the recent passing of my grandmother, Margaret Beecher on October 25, 2013. Words cannot express my gratitude toward the community during this difficult time. I would also like to thank those who traveled far to attend the services. I pray that everyone had a safe return. Please, continue to pray for my family. May the creator bless the community/tribe in return.

Sincerely,  
The Beecher Family

## Wandering Greeter Issues

My name is Truman Talieje. I have friends, cousins, uncles, bros and sisters, nephews and nieces; who acknowledge me at different times and places in the community, especially while I'm twirling (walking) around Peachville. So, if you catch me staring, just wave or give a friendly look and if I don't acknowledge my people, some might think I'm angry or upset so, don't get offended if I stare.

## Depression of my Unhappiness

Guilt, sleepy whatever names goes,  
I'm that person who's feeling low -  
There ain't really a cure for what I got,  
because this medication could make my heart stop.  
My past and memories made me of what I am today,  
Schizo, is my new name.  
For all my people who suffer depression and unhappiness,  
be careful of what you wish,  
one day it might happen to you.  
The voices and the trip it will take you through in your  
mind, there's nothing to do.  
Hearing the voices of what you do.  
Please people don't be afraid.  
Schizo, will be your new nickname.
