

Hualapai Community Celebrates Retirement of Mrs. Linda Havatone

The Linda E. Havatone & Family wish to extend their gratitude to the Hualapai Nation, Health Department, Elderly Center, Hualapai Department of Natural Resources, Tribal Administration, Training Center, Indian Health Service, Hualapai Lodge, Hualapai River Runners and the Grand Canyon Resort Corporation for hosting a Retirement Luncheon for Mrs. Linda E. Havatone.

On Wednesday, January 29, 2014 Linda E. Havatone was honored with kind words of expression from the Hualapai Leadership for her service and dedication to the Hualapai people. Mrs. Havatone was recognized for 38 years of service to the Hualapai

Tribe in which she served in various capacities as an employee and her participation on the various committees.

On a personal note Linda already misses everyone that she has worked with over the years and would like to thank you for being there for her as she ended her employment with the Hualapai Health Department. She loved the gifts and would like to thank you all.

To Our Mother:

Mom, we love you very much. You have been a great role model for us and you have never let us down. You are a good mom and a hard working Mother. You have always provided for the family even if you didn't have the means to help us, you gave, even when you didn't have anything to give. We know this in our hearts.

You love your people like you have loved your family we know this too as you had a heart for all those you were in contact with. We are proud of you for setting the benchmark so high for us to follow.

There is no one that we know of that has worked as hard and as long as you did for this many of years! It will be hard to follow in your steps but then again, you are unique and beautiful in your own way. What a great legacy you and dad have left us! Congratulations & Happy 80th Birthday!

We Love you Mom! Earlene and Stubby Havatone

My dearest and sweet Grandmother you have always understood me like no other, sorry for the pain I have caused you. I realize now what I never knew before. You are simply and by far the one person who has always loved me no matter what we went through. So, for that I have a couple of things I would like you to know. Grandmother you are beautiful and I love you so, I thank you for always being strong! I thank you for saying I was right even if I was wrong. You always had a way of finding all the right things to say. When I was troubled and I needed your advice, you remained humbled and said something simple and nice. Hugs and kisses are something's I miss. Your motherly instincts and warm compassion are a small fraction of what makes you who you are. I know in my heart when I look, you will

never be far. I can continue with compliments one after another, but my greatest is calling you my Grandmother! Happy 80th Birthday I love you and thank you for everything! You truly are a blessing to us "Strong Indians".
From Doncio Havatone & Family, the youngest to the oldest!

Linda E. Havatone was born January 30, 1934 to the late Jane (Cooney) and Jacob Honga.

Linda Married in 1956 to Earl Havatone and had seven children: Janette, Earl Jr., Gary, Chuck, Don, Eagle and Earlene Havatone. Mr. & Mrs. Havatone lost two children to sickness and health. Linda & Earl raised their five children until they were grown and on their own. Together Linda and Earl raised all their grandsons. Later in years she raised four of her granddaughters, and great grandchildren. She is surrounded by the love of her grandchildren and great grandchildren on a daily basis.

Environmental Protection Agency Open House/Hearings

News Release: EPA Region 9 Proposes Pollution Controls at Six Arizona Facilities

Release Date: 01/28/2014

Contact Information: Margot Perez-Sullivan, (415) 947-4149,
perezsullivan.margot@epa.gov

SAN FRANCISCO – The U.S. Environmental Protection Agency is proposing pollution controls at six facilities in Arizona to improve visibility at national parks and wilderness areas.

EPA is proposing a federal plan to limit emissions such as nitrogen oxides and sulfur dioxide tailored to six facilities: Tucson Electric Power's Sundt Plant in Tucson, [Chemical Lime Nelson in Peach Springs](#), ASARCO's Hayden Smelter, Freeport McMoran's Miami Smelter, Phoenix Cement Company's Clarkdale plant and CalPortland Cement Company's Riillito plant. As a part of this process, EPA also evaluated other sources but is not proposing to require any additional controls on these other sources at this time.

This action proposes to promulgate federal requirements for those elements of the Arizona Regional Haze State Implementation Plan that EPA disapproved on July 30, 2013. The Regional Haze Program's goal is to reduce emissions of pollutants that impair visibility at protected national parks and wilderness areas, known as Class I areas. EPA will accept public comments for 45 days after publication in the Federal Register.

EPA estimates the proposal would reduce sulfur dioxide by almost 30,000 tons per year and nitrogen oxides by 3,100 tons per year.

EPA will hold public hearings on February 25, 2014, in Phoenix and on February 26, 2014, in Tucson and will accept comments for 45 days after publication in the Federal Register. A final determination will be made by June 27, 2014.

Open House/Hearings:

Public Hearing in Phoenix:

Date: February 25, 2014.

Open House: 4:00—5:00 p.m.

Public Hearing: 6:00—8:00 p.m.

Location: Phoenix Convention Center, Rooms 150–153, 33 South 3rd Street, Phoenix, Arizona 85004.

Public Hearing in Tucson:

Date: February 26, 2014.

Open House: 4:00—5:00 p.m.

Public Hearing: 6:00—8:00 p.m.

Location: Tucson High Magnet School, Auditorium, 400 North 2nd Avenue, Tucson, Arizona 85705.

Request for Proposals • Site Visit: Wednesday, February 19, 2014**HUALAPAI DEPARTMENT OF NATURAL RESOURCES**

P.O. BOX 300 • PEACH SPRINGS, ARIZONA 86434 • 928-769-2254 • 928-769-2255 • FAX 928-769-2309

REQUEST FOR PROPOSALS

The Hualapai Department of Natural Resources (HDNR) is seeking proposals to pile juniper slash on 250 acres of land at Robber's Roost area off of Indian Route 18 just past mile marker 11 (see attached map). The slash (attached photograph) is the result of woodcutting by tribal members in an area where herbicide was applied over 10 years ago to kill juniper to improve forage for livestock and wildlife. The juniper slash will be piled to four-foot high piles or less no more than 10 feet wide. Transportation to the job site will be the responsibility of the contractor. All expenses and equipment needed to complete the job will be the responsibility of the contractor. A site visit will be provided by HDNR staff to prospective bidders on February 19, 2014 9:00AM to 12:00PM leaving from the Hualapai Department of Natural Resources. Payment will be made on a monthly basis based on percent completion of the project. HDNR staff will also meet with the successful bidder and participate in a field orientation trip to provide final instructions to the contractor prior to initiation of the project. The project would need to be completed before September 1, 2014.

Please submit a bid that includes a statement of your qualifications as well as a total price for the work. Bids exceeding \$10,000 will not be considered. A 1% TERO tax will be assessed to the successful contractor. Bids can be submitted to Ms. Allene Price at the Hualapai Department of Natural Resources, 947 Rodeo Way, or P.O. Box 300 Peach Springs, AZ 86434. Bids will also be accepted by FAX at 928-769-2309. We will accept bids until February 25, 2014. If there are any questions about this Request For Proposals, please call Ms. Donata Dupree at 928-769-2254. Indian preference shall apply for contracting and employment.

Notwithstanding any other provision of the Request For Proposals, HDNR and the Hualapai Tribe expressly reserves the right to:

1. Waive an immaterial defect or informality; or
2. Reject any or all proposals, or portions thereof; or
3. Re-issue a Request For Proposals.

HDNR Request for Proposals • Deadline: Tuesday, February 25, 2014

December 2013

Dear General Manager,

My name is Renda Haney and I am the Fundraising Chairperson for Emmanuel Christian Academy, located in Kingman, Arizona. ECA is a non-profit, private Christian school which offers students an excellent education integrated with biblical doctrine. We are very proud to say that our school's test scores are rated in the top 4% in the nation!

I am approaching you today to ask if your business could help by sponsoring our fundraising event. Our school will be hosting its 1st Annual "ECA Carnival & Worship Festival" on February 20th – 23rd at the Fairgrounds to raise awareness of our school and, most importantly, raise funds to keep our school in operation.

Of course, we would welcome brochures from your business to be placed at the event for advertisement, but we are also offering sponsorship packages in order to benefit your business as you are benefiting our event. A list of packages is attached.

We have already begun to advertise throughout the Kingman area as well as surrounding communities. As the date approaches, the event will be broadcasted with Cameron & Murphy Broadcasting companies as well as Radio Shine, KNLB, and K-LOVE. These broadcasts will reach thousands of people daily. We will also be advertizing in the Kingman Daily Miner, the Gam'Yu Newsletter, the Needles Desert Star, Mohave Valley Daily News, and Today's News-Herald Havasu News. As we advertise for our event, we would certainly thank you for your sponsorship.

If you have any questions or are in need of anything further, feel free to contact me at (928) 303-1432. Thank you for your time and consideration.

In Christ's Love,

Renda Haney

Three Steps to Homework Success

You have probably noticed that your child has a little more homework each year. Help him/her get a handle on this year's workload with a daily plan.

- 1) **Discuss**-Begin each afternoon or evening by asking what homework they have. You can set a positive tone with comments like "I loved writing in my journal when I was your age" or "It's exciting that you're old enough for long division."
- 2) **Plan**-Ask your youngster what order they will do the work in. You might suggest that they finish her hardest subject or longest assignment as soon they get home and save easier ones for after dinner. Or perhaps they prefer to get simpler assignments out of the way to have fewer tasks ahead. They could try each method to see which works best.
- 3) **Review**-Look over your child's finished work together. You might compliment your child on something they did particularly well. Then, if you see careless mistakes, have them double-check their work but avoid telling them the answers as the teacher needs to know what your child is able to do.

"Nothing can stop the man with the right mental attitude from achieving his goal; nothing on earth can help the man with the wrong mental attitude."

- Thomas Jefferson

Schedule subject to change - Management

Truxton Cañon Agency Training Schedule 2014

The 2014 Wildland Fire Season is on its way and we are looking for highly motivated individuals willing to work strenuous shifts, maintain a positive attitude, and understand their role. Keep in mind fire is unpredictable so shifts include weeks away from home and working holidays.

What is Wildland Fire?

A wildland fire is an unwanted ignition which consumes available fuels (grass, trees, and shrubs) by crawling, creeping, jumping, and running before smoldering to rest (MH). Unwanted fires are the results of Yellow Stone Fires (1988), Rodeo-Chediski Fire (2002), Wallow Fire (2010) and most recently on the Hualapai Reservation the Prospect Fire (2013).

What causes a Wildland Fire?

There are two types of ignitions 1) "anthropogenic" the results of human activity such as careless use of matches, dropping cigarettes, embers from chimneys, unattended camp fires, and sparks from machinery 2) natural ignitions are from volcanic activity or lightning.

How do I apply?

Contact staff at the Branch of Forestry or stop by the office for an application. The process for employment is to complete; 1) Drug test 2) Physical Exam (Rookie required or biannual for returners) 3) Work Capacity Test 4) Southwest Firefighter (SWFF) Application

The position which you are applying for will determine which Work Capacity Test (WCT) is required Pack test, Field test, or Walk test.

What will I Do?

You will be a part of a 20 man hand crew made of a Crew Boss, Squad Bosses, and Sawyers. On the other hand, you may be working on a wildland fire engine. Depending on experience and qualifications your position may vary.

Applying Requirements

- If you are on prescription medication a doctor's note must be shown prior to drug test.
- WCT, dress in gym clothes with walking or running shoes. If you fail your first attempt, you are eligible to retest within a two week time frame.
- Complete nomination by due date.

HEALTH & SAFETY INFORMATION

Hualapai Health Education and Wellness Center • In-Home Family Support Program

Hualapai Health Education and Wellness Center In-Home Family Support Program Seeking Safety Inmate Re-Entry and Family Re-Unification Program

The In-Home Family Support Team at the Hualapai Health Education and Wellness Center is in full force supporting clients incarcerated in the HADC through the Seeking Safety Program, family re-unification and re-entry into the community, as well as continuing to support clients and their families in their homes.

The Seeking Safety Program is a present-focused, coping skills model that addresses trauma and/or substance abuse, from the start of treatment. Its major goal is to help clients increase safety in their lives. The model is designed for both genders, and all types of traumas and substances.

The Seeking Safety model is characterized by the following features:

- Integrated treatment of trauma and substance abuse;
- Coping-skills oriented (to help increase safety from trauma and substance abuse);
- Present-focused (no exploration or dwelling of trauma details, although it can be used in conjunction with any other treatment);
- Idealistic (to restore hope);
- Evidence-based (the only model thus far established as effective for the dual diagnosis of PTSD and substance use disorder);
- Designed to be engaging (use of quotations, humanistic language, creative exercises);
- Flexible (it offers 25 topics that are each independent of the others; the clinician can do as few or as many topics as there is time for; can be modified and geared toward client/group's specific needs);

The Seeking Safety treatment has been implemented in various settings with men and women including mental health and substance abuse programs, veterans' hospitals, correctional settings, and residential treatment centers. It is proven successful because it embodies a compassionate tone that **HONORS** what clients have survived and **RESPECTS** their strengths.

The goal of the HADC and HEW re-unification support is to guide the inmates, through psychoeducation and family visits, to understand the reasons for their choices and behaviors that lead to the cycle of substance abuse. With this knowledge, the path is then clear to move forward in healing; both for the inmate as well as the family.

The family visitations are part of the re-unification process by allowing families to visit in an environment as "normal" as possible, including inmates dressed in "street clothes" and contact visits. A typical family counseling visit allows for families to converse and "be a family", while the remainder is set aside for counseling. When the inmate/client is released from the HADC, the HEW In-Home Family Therapists continue support the family with in-home family therapy.

The Seeking Safety and Re-Entry Program has united several families through visits. It may also be witness to some clients/inmates feeling some peace and purpose. Our hope is to empower both inmates and families to make choices that will positively affect the future of their families, their children, and their community.

Due to its success and popularity, The Seeking Safety Program is proud to announce new group sessions outside the HADC. Group sessions will be held at the Hualapai Health Education and Wellness Center and anyone interested may attend.

SEEKING SAFETY PROGRAM GRAND OPENING
HUALAPAI HEALTH EDUCATION AND WELLNESS
FEBRUARY 12, 2014
4:00PM – 6:00PM

Mobile On-Site Mammography • NEW DATE: Monday, February 24, 2014

"We Come To You"

I.H.S. Peach Springs Indian Health Center

*** NEW Date: Monday, February 24, 2014**

8am-5pm

To schedule an appointment please call: 928-769-2920

- ✓ Insurance coverage with Colorado River Service Unit (CRSU)
- ✓ Full field digital Mammography and CAD computerized reading
- ✓ We are now able to accommodate breast implant patient

Patients under the age of 30 must provide a Doctor's referral
(Unless family history or symptomatic)

Please bring the following information:

Location of prior mammogram films

Recommended Baseline Age:

35-40

The following items are very important to insure that your experience with Mobile On-site Mammography is a pleasant one. They will further insure that the results of your mammogram are processed in a timely and accurate fashion.

- Bring insurance card
- Name, address and phone number of the facility where you had your last mammogram.
- Do not wear any deodorant, powder, perfume or lotion the day of your appointment.
- It is suggested that a two piece outfit be worn the day of your appointment.

Remember, 15 minutes could save your life!

A Parent's Guide to MRSA • Submitted by Peach Springs Health Center

A Parent's Guide to MRSA

Peach Springs Health Center
Public Health Nursing, Pamela Shaffer, RN PHN

What You Need to Know...

What is Staphylococcus Aureus?

Staph are bacteria that many healthy people carry on their skin or in their nose. About 25% of people in the US carry staph in their nose and it does not make them sick. Most staph infections are minor and can be treated without antibiotics. However, staph can sometimes cause serious infections like pneumonia, blood or joint infections and deep skin infections.

What is MRSA?

Methicillin-resistant Staphylococcus aureus (MRSA) is a type of staph that is not killed by penicillin and similar antibiotics.

About 1 in every 100 people carries MRSA without making them sick. MRSA infections do not look any different than ordinary staph infections.

What do staph and MRSA infections look like?

- Sores that look and feel like spider bites (but are not spider bites)
- Red painful bumps under the skin, called boils or abscesses
- Cuts that are swollen, hot and filled with pus
- Blisters filled with fluid or red skin with a honey-colored crust
- Red, warm, firm skin area that is painful and getting larger

How Do You Get MRSA?

- *Spread by direct skin to skin contact with an infected person
- *Touching surfaces that have staph on them from someone else's infection
- *It is NOT usually passed through the air!

- *If you think your child has MRSA, see the doctor. Do not ignore the sore or hope it will go away.*
- *Children can attend school with MRSA if the wound is not draining and can be covered with a dressing. Avoid activities with skin to skin contact.*

HAND WASHING IS THE EASIEST WAY TO PREVENT MRSA AND STAPH INFECTIONS!!

When should hands be washed?

- Whenever the skin comes into contact with other people or shared surfaces or equipment.
- Before and after athletic practice, games or working out.
- After sneezing, coughing, blowing or touching the nose.
- Before and after touching the eyes, nose or mouth or skin that has open sores, boils or rashes.
- After using the toilet or urinal.
- After touching any item soiled with wound fluids, such as bandages, dressings or bedding.
- After cleaning the bathroom, changing your bedding or doing laundry.
- Before preparing food, eating or drinking.

How are MRSA infections treated?

Some staph skin infections are treated by draining the sores and may not require antibiotics. Draining should ONLY be done by the doctor! If the doctor gives you antibiotics, make sure you take ALL the medicine, even if you are getting better. Do NOT share your medicine or

save it for another time. Call your doctor back if the infection does not get better after a few days. If someone you live with or know gets the same infection, tell them to go to the doctor!

Choose More than 50 Ways to Prevent Type 2 Diabetes • Submitted by: Hualapai Healthy Heart Program

Choose More than 50 Ways to Prevent Type 2 Diabetes

Learn how to prevent or delay type 2 diabetes by losing a small amount of weight. To get started, use these tips to help you move more, make healthy food choices, and track your progress.

Reduce Portion Sizes

Portion size is the amount of food you eat, such as 1 cup of fruit or 6 ounces of meat. If you are trying to eat smaller portions, eat a half of a bagel instead of a whole bagel or have a 3-ounce hamburger instead of a 6-ounce hamburger. Three ounces is about the size of your fist or a deck of cards.

Put less on your plate, Nate.

1. Drink a large glass of water 10 minutes before your meal so you feel less hungry.
2. Keep meat, chicken, turkey, and fish portions to about 3 ounces.
3. Share one dessert.

How much should I eat?

Try filling your plate like this:

Eat a small meal, Lucille.

4. Use teaspoons, salad forks, or child-size forks, spoons, and knives to help you take smaller bites and eat less.
5. Make less food look like more by serving your meal on a salad or breakfast plate.
6. Eat slowly. It takes 20 minutes for your stomach to send a signal to your brain that you are full.
7. Listen to music while you eat instead of watching TV (people tend to eat more while watching TV).

National Diabetes Education Program

www.YourDiabetesInfo.org

Move More Each Day

Find ways to be more active each day. Try to be active for at least 30 minutes, 5 days a week. Walking is a great way to get started and you can do it almost anywhere at any time. Bike riding, swimming, and dancing are also good ways to move more.

If you are looking for a safe place to be active, contact your local parks department or health department to ask about walking maps, community centers, and nearby parks.

Dance it away, Faye.

8. Show your kids the dances you used to do when you were their age.
9. Turn up the music and jam while doing household chores.
10. Work out with a video that shows you how to get active.

Let's go, Flo.

11. Deliver a message in person to a co-worker instead of sending an e-mail.
12. Take the stairs to your office. Or take the stairs as far as you can, and then take the elevator the rest of the way.
13. Catch up with friends during a walk instead of by phone.
14. March in place while you watch TV.
15. Choose a place to walk that is safe, such as your local mall.
16. Get off of the bus one stop early and walk the rest of the way home or to work during the week if it is safe.

Make Healthy Food Choices

Find ways to make healthy food choices. This can help you manage your weight and lower your chances of getting type 2 diabetes.

Choose to eat more vegetables, fruits, and whole grains. Cut back on high-fat foods like whole milk, cheeses, and fried foods. This will help you reduce the amount of fat and calories you take in each day.

Snack on a veggie, Reggie.

17. Buy a mix of vegetables when you go food shopping.
18. Choose veggie toppings like spinach, broccoli, and peppers for your pizza.
19. Try eating foods from other countries. Many of these dishes have more vegetables, whole grains, and beans.
20. Buy frozen and low-salt (sodium) canned vegetables if you are on a budget. They may cost less and keep longer than fresh ones.
21. Serve your favorite vegetable and a salad with low-fat macaroni and cheese.

Choose More than 50 Ways to... (Continued) • Submitted by: Hualapai Healthy Heart Program

Cook with care, Claire.

- 22. Stir fry, broil, or bake with non-stick spray or low-salt broth. Cook with less oil and butter.
- 23. Try not to snack while cooking or cleaning the kitchen.
- 24. Cook with smaller amounts of cured meats (smoked turkey and turkey bacon). They are high in salt.

Cook in style, Kyle.

- 25. Cook with a mix of spices instead of salt.
- 26. Try different recipes for baking or broiling meat, chicken, and fish.
- 27. Choose foods with little or no added sugar to reduce calories.
- 28. Choose brown rice instead of white rice.

Eat healthy on the go, Jo.

- 29. Have a big vegetable salad with low-calorie salad dressing when eating out. Share your main dish with a friend or have the other half wrapped to go.
- 30. Make healthy choices at fast food restaurants. Try grilled chicken (with skin removed) instead of a cheeseburger.
- 31. Skip the fries and chips and choose a salad.
- 32. Order a fruit salad instead of ice cream or cake.

Rethink your drink, Linc.

- 33. Find a water bottle you really like (from a church or club event, favorite sports team, etc.) and drink water from it every day.
- 34. Peel and eat an orange instead of drinking orange juice.
- 35. If you drink whole milk, try changing to 2% milk. It has less fat than whole milk. Once you get used to 2% milk, try 1% or fat-free (skim) milk. This will help you reduce the amount of fat and calories you take in each day.
- 36. Drink water instead of juice and regular soda.

Eat smart, Bart.

- 37. Eat foods made from whole grains every day, such as whole wheat bread, brown rice, oats, and whole grain corn.
- 38. Use whole grain bread for toast and sandwiches.
- 39. Keep a healthy snack with you, such as fresh fruit, a handful of nuts, and whole grain crackers.
- 40. Slow down at snack time. Eating a bag of low-fat popcorn takes longer than eating a candy bar.
- 41. Share a bowl of fruit with family and friends.
- 42. Eat a healthy snack or meal before shopping for food. Do not shop on an empty stomach.

- 43. Shop at your local farmers market for fresh, local food.

Keep track, Jack.

- 44. Make a list of food you need to buy before you go to the store.
- 45. Keep a written record of what you eat for a week. It can help you see when you tend to overeat or eat foods high in fat or calories.

Read the label, Mabel.

- 46. Compare food labels on packages.
- 47. Choose foods lower in saturated fats, trans fats, cholesterol (ko-LESS-tuh-ruhl), calories, salt, and added sugars.

Choose More than 50 Ways to... (Continued) • Submitted by: Hualapai Healthy Heart Program

Take Care of Your Mind, Body, and Soul

You can exhale, Gail.

48. Take time to change the way you eat and get active. Try one new food or activity a week.

49. Find ways to relax. Try deep breathing, taking a walk, or listening to your favorite music.

50. Pamper yourself. Read a book, take a long bath, or meditate.

51. Think before you eat. Try not to eat when you are bored, upset, or unhappy.

Be Creative

Honor your health as your most precious gift. There are many more ways to prevent or delay type 2 diabetes by making healthy food choices and moving more. Discover your own and share them with your family, friends, and neighbors.

Make up your own, Tyrone or Simone.

52. _____

53. _____

54. _____

Track Your Progress

Visit www.YourDiabetesInfo.org or call 1-888-693-6337 / TTY: 1-866-569-1162 to get your free GAME PLAN to Prevent Type 2 Diabetes booklet. It has charts to help you track the foods you eat and how much you move each day.

Things to Remember:

- ▶ Talk to your doctor about your risk for getting type 2 diabetes and what you can do to lower your chances.
- ▶ Take steps to prevent diabetes by making healthy food choices, staying at a healthy weight, and moving more every day.
- ▶ Find ways to stay calm during your day. Being active and reading a good book can help you lower stress.
- ▶ Keep track of the many ways you are moving more and eating healthy by writing them down.

COMMUNITY MESSAGES

Thank You

The Zephier family would love to thank the staff at the Boys and Girls Club for helping to shape and polish the Zephier family. You, the staff, volunteers are appreciated. Thank you for all you do for the Peach Springs community.

A Special Thank You!

February 14, 2014

*Remembering the Birthdate of
Audrey Walema Davis
&
Jacob Davis*

I feel a warmth around me like your presence is so near. I close my eyes to visualize your face when you were here. I cherish the time we spent together; they are locked inside my heart. For as long as I have those memories, we will never be apart. Even though we cannot speak no more, your voice is always there. Every night before I sleep I have you in my prayer.

Miss you & Love you, Char

Happy Birthday

Addie Crozier
I love you.
Brandon

Part II

As soon as the sky clears and there is no more thunder, there's a war going on, it just makes you wonder, nobody can see who's trying to take us under. The scream that I scream, Satan, don't pull us under. A fights going on and the clouds begin back to the picture. A thunder in the voice and the rain pushes away sinner. The opening we see, so we all take cover. Lord, help us please. So, he gave us our body armor. We never realized what could take us under. If you think what you think - just do the opposite to make wonders.

True story by Ricco Dee AKA Justin Davis

OxendaleHyundai

If anybody in the community is looking for that new vehicle for the 2014 year. Give me a call at (928) 349-9095. Ask for Melfred.

EMERGENCY SERVICES BIRTHDAYS

Ava Whatoname	Fire Assistant - Feb 3
Ricardo Garcia	Firefighter EMT - Feb 7
Chris Gortariz	Firefighter EMT - Feb 9
Kory Guillet	Paramedic - Feb 16

Your Fire brothers, EMS & Animal Control wish you the best on your birthday & wish you many more...

Thank you for your service to the community of Hualapai!!

10x42 Zeiss Binoculars

On the night of Clifton Achee's wake, while I was singing, these binoculars were taken out of my truck. This was a gift to Rhodena Bravo, whoever took them—I want them back. If someone purchased this, then you are just as guilty as the person who took them. I do a service for my community, and this is how you treat me in return. If anyone has information, please contact Mike Whatoname at 928-769-2269.

I Love You 'M', 'C' and 'S' by Anonymous

By the time that you can read this you may not know me well. But, then again, we may be close, you can never really tell. You used to call me Daddy. I used to hold you tight. I used to bathe you every day and tuck you in at night. I should have held your mother more, we should of sat and talked. The love grew cold, the words got hot, then one day... I walked.

I cried that night I left you all, I cried again today. It seems sometimes that's all I've done since that night I went away. I hope you know I love you, though I wasn't always there. I think about you constantly and you all are always in my prayers. I hope someday you'll understand that this thing hurt me too and I hope you'll know, I always have and always will love

I Love You 'M', 'C' and 'S' Poem (Continued)...

you. Last night I sat and pictured you all in my sight, and thought of you all 'till the sky grew bright.

I'm not the man I used to be, I've learned a lot since then. I wish I could turn back time and live with you again. But, I can't change the things I've done, or take back the things I've said. All I can do is write these words, while picturing you in my head. I hope that when you read this, you'll know this one thing true, that no one else in this whole world means more to me than you.

Untitled Poem by Anonymous

We ask ourselves, "What is sin? and how does it begin?"

Does it come from without or begin from within?

Well, sin is much more than an act, word or deed, more than false witness or avarice and greed. More than adultery, killing or stealing. Sin starts with a thought or an unworthy feeling, long before it becomes an act, word or deed. For it grows deep within like a poisonous weed. It's something we nurture, and then cultivate by conjuring up evil, we then imitate, and the longer we dwell on the evil within, the greater our urge and desire to sin and the less our restraint of unwholesome sensation to deny to our body full gratification and the more that we sin, the less we detect that in sinning. We

lose our own self-respect, and slowly we sink to a still lower level, until we merely become the duds of the devil. For sin is so subtle and it slips in with ease, and gets a firm hold when we do as we please. So, ask God to help you to conquer the desire, that has set you a fire and remember in sinning there is no lasting joy, for all sin can do is degrade and destroy.
