The Great Spirit created Man and Woman in his own-image. In doing so, both were created as equals. Both depending on each other in order to survive. Great respect was shown for each other, in doing so, happiness and contentment was achieved then, as it should

The connecting of the Hair makes them one person; for happiness or contentment cannot be achieved without each other.

The Canyons are represented by the purples in the middle ground, where the people were created. These canyons are Secred, and should be so treated at all times.

The Reservation is pictured to represent the land that is ours, treet it well.

The Reservation is our beritage and the heritage of our children yet unborn. He good to our land and it will continue to be good to us.

The Sun is the symbol of life, without it nothing is possible - plants don't grow -there will be no life - nothing. The Sun also represents the dawn of the Husingsi people. Through hard work, determination and aducation, everything is possible and we are assured higger and brighter days ahead.

The Tracks in the middle represent the coyote and other unimals which were here before us.

Dear Community members,

Gamyu! I hope that everyone is prosperous in this New Year 2015. I wanted to recap last year and where the Hualapai Tribe stands as a whole. We have accomplished many things and the council has continued to work together while we may have our different ideas and thoughts we all discuss issues and come up with a direction of a majority vote as our constitution says we

The Hualapai Tribe continues to lead on many fronts and we have worked closely on Federal, and State issues. It was a great honor to speak before the Senate of Indian Affairs on our Water Rights Issue. While there I invited the Senators to come visit our "Skywalk". Senator McCain and Senator Flake have supported the Water Rights issue for us. Jean Pagilawa also had an opportunity to speak to the Natural Resources Committee on Water Rights in Washington, D.C.

Congressmen Gosar has come out to visit us at the "Skywalk" and has become a great friend to the Hualapai he has supported and promoted the "Down winders" and sponsored a bill that is now at the Arizona State Legislature. This legislation will allow Mohave County residents, diagnosed with cancer due to the radiation from Nevada test sites, the ability to access the funds that are available to others designated within the area. This will also include families of those that have died from cancer. This has been a long hard battle I pray that this will move fast for the benefit of those families that have been impacted.

We still have the Gaming Issue while there still remains a court case against Tohono Odom tribe. The "Keep the Promise Act" was not passed by Congress in 2014 so we will go back to Washington, DC and as they say "walk the halls of congress" to gain support from the Senators. Salt River and Gila River take the lead and set up meetings with many of the staff representatives and coordinates our efforts. We discuss what the impact will be if we lose our ability to lease our machines. We describe how it will impact Hualapai people and how we use that money to help Page 2

the people with things such as medical travel, school clothes, and utilities. We must continue to provide these resources to tribal members.

While we cannot always depend on the leasing of our machines forever we must be smart business people and take care of our own resort at GCW so that the resources for the community will not be impacted. It takes money to continue to run and sustain a business. We must save for the future and ensure that our children have provisions when they sit in the seats of leadership.

Last year we finished paving the Diamond Bar Road which was a great accomplishment for all of us this will greatly impact the amount of visitors that come to our resort. It has been a long battle to accomplish this goal due to a single rancher trying to stop our success. The business was attacked in many ways but continued to focus on providing a quality product to its visitors. Invitations for this awesome event were sent out to people across the nation to those that participated in the success of the completion of the road. Governor Brewer was slated to attend but due to the weather was unable to attend. A call from her office the next day to congratulate us on our successful completion of the road was very much appreciated.

We built and opened our own Day Care facility last year and it has been successful we work through the problems that spring up from time to time. The Elder Living facility has been built and we just wait for furnishings and staff. As we strive to open this up we hope that the elders and community will make suggestions for this to be successful. We also built and opened up our "Instead of Incarceration Living facility" and have furnished and staffed that facility. We also broke ground on the Youth Camp renovation and hope this will meet the needs of the community.

The tribal council has worked to improve the Head Start program. We have worked on the 54 findings and have made significant improvement. While we could have lost the program the Head Start worked with us and allowed us to make the needed changes. It has taken a couple of years and a few directors to bring the program up to the standards. We will continue to maintain the Head Start standards to provide our children with the skills to move on in their education as they transition from Head Start to school.

Over the years we have built many buildings to benefit the tribal members and provide services to the community. The buildings are from the vision of past leaders that worked hard to ensure that the Hualapai people have access to the services needed. We should take pride in the buildings we have to provide resources for our healing.

We also closed the store last year in the hopes of renovating the building and making significant improvements. The inside of the building was old and needed a lot of work there was black mold, asbestos and other unsafe chemicals that needed to be removed. The Hualapai Tribal Council authorized about \$2.2 million for the Grand Canyon Resort Corporation to make the improvement to the store. Our goal is to make the prices at the store comparable to town shopping.

The Minor Trust Fund was established last year so the children's money is in a savings for their future. I believe the trust fund is an awesome gift we can provide for our children. We can be confident that our children's money is gaining interest.

We have had Director's meeting each month and have discussed the Hualapai Policies and Procedures to ensure that they are followed. It is important to follow the policies and procedures so that all employees are treated fairly. I have always encouraged all employees to know the policies and procedures to protect their rights as employees.

There have been lawsuits against the tribe and business and we have addressed them to the best of our ability. While we have had to spend money for attorney's fees it was necessary to protect the interests of the Hualapai people. It is important to remember that when you have a big business that generates a lot of money people will all come after it. What is really sad is when our own members take us to court for a significant amount of money. However, this is just part of being a prosperous business; others will always want a piece of the pie.

In December another Christmas per capita distribution was mailed out to all tribal members including the children. This is an annual payment that will be mailed out by December 15th of every year. Please remember to contact the tribal office to update address changes.

These are just a few highlights of 2014 but not everything we have worked on and accomplished has been included. As we continue to move forward it is important to be positive and support those things that will be helpful for all Hualapai people. I have no doubt that we will continue to grow in our business for the benefit of the Hualapai people and community.

Please always feel free to contact us in our offices to answer any questions or come to see us our doors are open. I pray for our community each and every day that we continue to be blessed and that as we grow we can provide the needs of our community. I know that God has watched over us and blessed us through all of the battles we have gone through and those ahead. I trust and believe that He will continue to provide and bless us.

May God bless the Hualapai tribe, and the United States of America!!!

Respectfully Submitted,

Youth Camp to Remain Closed Due to Construction

Submitted by: Kevin Davidson | Hualapai Planning Department

The Hualapai Youth Camp will be closed for the remainder of the year to allow for the construction of the new bunkhouse, pavilion and laundry/restroom buildings.

ITCA Press Release • April 2nd

Submitted by: Verna Monenerkit | ITCA

FOR IMMEDIATE RELEASE:

ITCA Takes Legal Action to Recover Funds for the Benefit of Indian Education in Arizona

PHOENIX, Arizona - April 2, 2015 - The Inter Tribal Council of Arizona, Inc. (ITCA), a nonprofit consortium of 21 Tribes in Arizona, announced today that it has filed suit in the U.S. Court of Federal Claims (Case No. 1:15-cv-00342-NBF) over the United States' mismanagement and failure to collect funds owed to the Arizona Inter Tribal Trust Fund (Trust Fund) for the benefit of Indian education in Arizona.

The Trust Fund, which was established by an Act of Congress known as the Arizona-Florida Land Exchange Act of 1988, was intended to provide a means of continued funding for Indian education in Arizona following the closure of the historic Phoenix Indian School, located in central Phoenix. Established in 1891, the Phoenix Indian School operated as a federal Indian boarding school providing academic and vocational education for tribal students in Arizona for nearly 100 years. Many of Arizona's current Tribal leaders have memories of their days attending the Phoenix Indian School.

With the Phoenix Indian School's closure, the United States agreed to exchange the land on which the School had been located - about 100 acres in the heart of central Phoenix - for land in Florida owned by Barron Collier Company and Collier Enterprises (Collier) that would be added to a national wildlife refuge.

When Congress approved the Arizona-Florida Land Exchange Act of 1988, the Phoenix land to be exchanged to Collier was worth significantly more than the Florida land that the United States was to receive in the deal. Congress required that the difference in value owed by Collier -\$34.9 million – be paid into two new education trust funds for Tribes in Arizona, with 5% benefiting the Navajo Nation and 95% benefiting the ITCA Member Tribes at that time.

"The Trust Fund has provided a vitally needed source of funding for K-12 education and child welfare services for Tribes in Arizona. The loss of this funding source will have a real impact on Indian education across the State," explained Thomas Beauty, Chairman of the Yavapai-Apache Nation and ITCA President.

After enactment of the Arizona-Florida Land Exchange Act, the United States agreed, as the Act allowed, to allow Collier to pay the \$34.9 million owed to the United States for the benefit of Indian education over a 30-year period through annual interest payments and deposits into an Annuity fund. Over the objection of Tribal Leaders, Collier was not required to begin making payments until 1997.

"While ITCA's Leaders originally expressed concern with Collier's repayment terms agreed to by the United States, we felt that because the land exchange was authorized and directed by an Act of Congress, the United States would be collecting all of the money owed by Collier to the Trust Fund. We are now finding out this may not be the case," Chairman Beauty said.

The 30 year loan by the United States to Collier was originally secured by a lien on the former Phoenix Indian School property and Collier's development rights to land in downtown Phoenix where the Collier Center is now located. The loan also was secured by the required annual Annuity payments.

Collier notified the United States in early 2013 that it would no longer make the annual interest payments required by the Act, and it would no longer make the annual payments into the Annuity which leaves the value of the Annuity well-short of the required \$34.9 million. Collier's last payments were in 2011.

Today, the United States' sole remaining collateral for Collier's debt is in a Deed of Trust on the 15-acre property located at the site of the original Phoenix Indian School parcel. This remaining property is insufficient to cover the full debt owed to the Trust Fund as originally contemplated by Congress in 1988. The United States filed suit against Collier in federal district court in Phoenix in 2014, hoping to force Collier to re-collateralize the \$34.9 million owed to the United States by providing U.S. Government-backed securities.

"The United States has an obligation to collect not only the \$34.9 million it originally loaned to Collier to fund the land exchange, but also the 15 years of remaining annual interest payments that are so desperately needed for Indian education in Arizona. The United States' suit against Collier does not appear to address these funds," Chairman Beauty explained.

Given that Collier is now into the fourth year of non-payment, ITCA will ask the Court of Federal Claims to hold the United States legally responsible for the unpaid Trust Fund annual interest payments and the principal payment.

ITCA is represented in this case by the Native American Rights Fund (NARF), a non-profit legal defense fund headquartered in Boulder, Colorado. Inquiries about this case may be directed to Melody McCoy, NARF Staff Attorney, at (303) 447-8760.

Help Shape the Future of Transit

Submitted by: Mary Rodin | Kimley-Horn & Associates

Please Help Shape the Future of Transit for the Hualapai Tribe

The Hualapai Indian Tribe, through the Planning Department, has started work on a transit feasibility study to design a transit system to serve the Community. The study began in early April and will be completed in November, 2015. The study will result in a roadmap for tribal transit services for the Hualapai Community. An important part of study process is public outreach. Goals of the public outreach program are:

- Providing clear and accurate information that encourages informed public participation and input
- Providing multiple, convenient ways for interested parties to provide comment.
- Providing multiple ways through which the public can learn about the project

Our first outreach effort is planned for April 24th, 2015, to correspond with Earth Day activities. We will be setting up an information table at various locations, with handouts, displays about the study, and a survey. People completing the survey will be entered into a drawing for gift cards. The survey will be an important source of information to find out about where people are traveling to, what times they need to travel, whether they are having problems getting where they need to go, and what fare would they consider reasonable to take a bus. This information will help to design a transit system that really addresses Community needs.

The schedule for the mobile information table is: April 24th, 2015

- Walapai Market: 8:30 am-11:00 am
- Senior Center: 11 am-12 pm
- Hualapai Tribal Gym: 12 pm-1 pm
- Walapai Market: 2 pm-5 pm

Please stop at one of these sites and find out more about the study!

Grand Canyon Monitoring River Trip

Submitted by: Pete Bungart | Hualapai Department of Cultural Resources

Department of Cultural Resources Grand Canyon Monitoring River Trip May 28-June 9,2015

The Hualapai Dept. of Cultural Resources will be conducting their annual Cultural Resources Monitoring River Trip from May 28-June 9, 2015. We have a limited number of spaces for Tribal members to participate on the trip. Our goal is to include those who have not participated in past monitoring trips and who are interested in learning about the Colorado River through the Grand Canyon, experiencing this aspect of your ancestral homeland, and contributing to the goals of the monitoring program. If interested, please read the information below and contact the Dept. of Cultural Resources at (928) 769-2223.

Additional Information for Dept. of Cultural Resources Monitoring River Trip May 28 - June 9, 2015

The Hualapai Department of Cultural Resources will be conducting their annual Cultural Resources Monitoring River Trip from May 28-June 9, 2015 (May 28 is actually a travel day to Lees Ferry; we will launch on May 29). We have a limited number of spaces for tribal members to participate on the trip. Our goal is to include those who may not have participated in past trips and who are interested in learning about the Colorado River through Grand Canyon, experiencing this aspect of your ancestral homeland, and contributing to the goals of the monitoring program. These include:

- Monitoring archaeological sites and other Traditional Cultural Places.
- Conducting plant studies at designated study plots to identify changes in the number & types of native and non-native plants.
- Learning and sharing information about Hualapai Traditional Ecological Knowledge regarding plants, wild-life, and other aspects of Colorado River ecology.
- Reinforcing the Hualapai people's connection to the Canyon and River, and gaining insight and input on how we may help direct the management of Glen Canyon Dam and the Colorado River ecosystem, including the cultural and natural resources (which go hand in hand).

Participants will be expected to help out in one way or another. For example, younger people will help with monitoring and other aspects of field work (we'll provide training), which will involve some hiking. Elders may share knowledge about the Canyon and the River and about how the Hualapai people made their living there and in the surrounding landscape. Much of what we do will be documented through photographs and audio & video recordings.

Please be aware that this will be a 12-day river trip on a large motorized raft, which will be operated by professional staff from the Grand Canyon Monitoring and Research Center of the U.S. Geological Survey in Flagstaff. Every precaution will be taken to conduct a safe and healthy trip, but there are risks and potential hardships involved. For example, a number of large rapids will be encountered, so expect to get wet on occasion! In addition, camping each night will be required. Younger participants will be expected to sleep on pads on the ground, but we will provide cots for our elder participants. Tents will be available, but since our trip will be during the normal dry and warm season of late May & early June, they may be optional. Camping gear will be provided to those that request it.

Adequate food will be provided, including breakfast, lunch, dinner, and between meal snacks, as well as water, juices, and soft drinks, Generally, we eat quite well, so don't worry about going hungry. (We can even arrange to make some tortillas & fry bread at camp!)

If you have certain medical or dietary needs, we can accommodate these up to a point, but it is very important to know what they are beforehand, so that we can determine if we can take care of them on a trip like this, and let the boat staff know, as well.

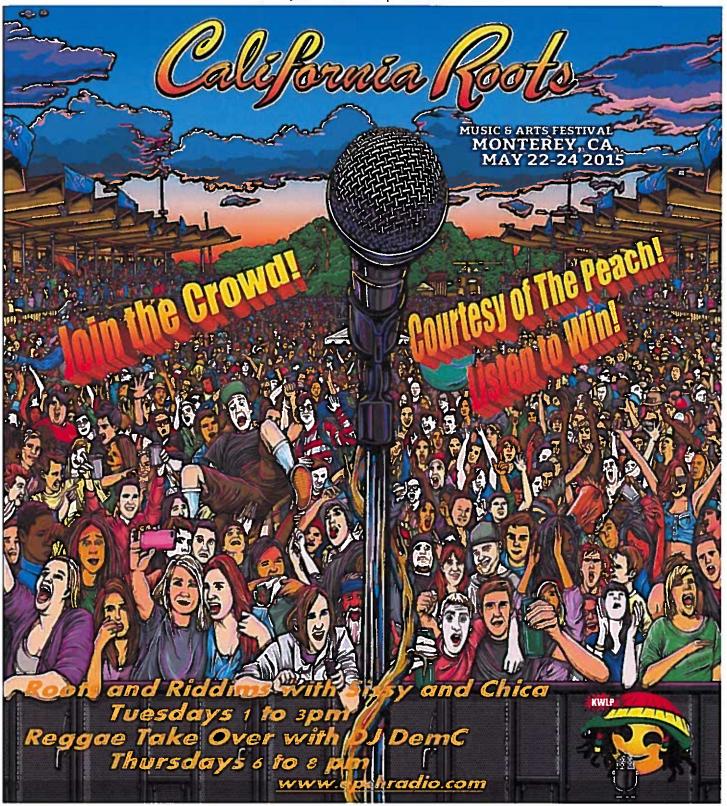

It must be stressed that this trip is all about participation, and we welcome your involvement. The more

Hualapai people that are involved, the better we can strengthen our ability to guide the future of the River's management. We will be interviewing potential participants in the coming weeks. If you are interested, please contact Peter Bungart, Carrie Cannon, or Bennett Jackson at (928) 769-2223.■

(Please Read Carefully)

In exchange for and as a condition of being allowed to participate in the Arizona Hunter Education Program students and student's parent/legal guardian (if student is a minor child) agree as follows:

- Student acknowledges that the Arizona Hunter Education Program features instruction in shotgun, rifle, handgun, muzzleloader, and archery involving the use of firearms and bows. Student further acknowledges that the Arizona Hunter Education Program will emphasize safe firearm handling and shooting skills.
- 2. Student understands that there are risks and dangers associated with the use of firearms, including serious bodily injury, death and property damage. Student agrees to assume all risks, inherent or otherwise, that may occur due to, arise out of or be in connection with Student's own participation, including without limitation the risk of serious bodily injury, death and property damage. Student further agrees to assume all risks, inherent or otherwise, that may occur due to, arise out of or be in connection with the participation of others in the Arizona Hunter Education Program, including without limitation other students; instructors/coaches; staff or volunteers of Arizona Game and Fish Department (hereafter, "AZGFD"), or the Governing Bodies; and audience members.

NOTE: Please be advised that it is not possible to list all of the activities and related risks that Student may encounter by participating in the Arizona Hunter Education Program. There may be risks that are not known to Student, or to other students of the Arizona Hunter Education Program, including staff or volunteers of AZGFD or the Governing Bodies, and may not be foreseen or reasonably foreseeable by anyone at this time or at the time of the activities in which Student participates. Student agrees to assume all risks of serious bodily injury, death and property damage, and all other risks of participation in the Arizona Hunter Education Program, whether or not described to Student.

3. Student further covenants not to sue and agrees to release, waive, and discharge the AZGFD, the State of Arizona and the Arizona Game and Fish Department Commission(hereafter "Commission"), and the Governing Bodies, and each of their respective directors, officers, employees, agents or volunteers (collectively, "Released Parties"), from any and all claims, demands, actions, suits, proceedings, liabilities, damages, losses, judgments and expenses (including reasonable attorney's fees and costs) that Student may suffer, directly or indirectly, due to, arising out of or in connection with Student's own participation or conduct (negligent or otherwise) in the Arizona Hunter Education

AZGFD Hunter Education Consent/Waiver and Student Registration Form

Program or the conduct (negligent or otherwise) of other students in the Arizona Hunter Education Program, including without limitation, the conduct (negligent or otherwise) of the Released Parties.

- 4. To the fullest extent allowed by law, Student agrees to defend, indemnify and hold the AZGFD, the State of Arizona and the Commission, and the Governing Bodies, and each of their respective directors, officers, employees, agents or volunteers, harmless from and against any and all claims, demands, actions, suits, proceedings, liabilities, damages, losses, judgments and expenses (including reasonable attorney's fees and costs) by third parties (including Student's own family) for any bodily injury, death or property damage or other incident occurring due to, arising out of or in connection with Student's own participation or conduct (negligent or otherwise) in the Arizona Hunter Education Program.
- 5. Medical Treatment: Student gives his/her consent to AZGFD and the host facility and/or organization of any Arizona Hunter Education event to provide, through medical staff of its choice, emergency medical service and/or transportation to an emergency medical facility in the course of my participation in the Arizona Hunter Education Program events.
- 6. Student grants to the AZGFD, the State of Arizona and the Commission, and the Governing Bodies permission to reproduce, publish, distribute, or otherwise use in any reasonable manner Student's name, photograph, likeness and statements in connection with the promotion of the Arizona Hunter Education Program, in all media, including, without limitation, the Internet, news articles, advertisements or other electronic or print materials. Student further covenants not to sue and agrees to waive, release and discharge the AZGFD and the Governing Bodies, and all of their respective directors, officers, agents, employees and volunteers, from and against any and all claims, demands, actions, suits, proceedings, liabilities, damages, losses, judgments and expenses (including reasonable attorney's fees and costs) arising out of or in connection with the use of Student's name, photograph, likeness and statements, including, without limitation, any and all claims for invasion of privacy, publicity, defamation and/or portrayal in a false light, copyright infringement and any claims and/or demands for compensation or royalties.
- 7. Student's signature below indicates that Student has read and fully understands this entire Consent and Waiver, and that it shall be binding upon Student, his representatives, heirs, assigns and next of kin.

Parents/Legal Guardians

8. As the parent or legal guardian of the Student, a minor child, I affirm that I have the authority to act on behalf of the Student and, as such, do hereby give my consent for the Student to participate in the Arizona Hunter Education Program. I declare that I have read and fully understand this entire Consent and Waiver, and that by signing below I agree that all of the provisions of this Consent and Waiver are equally binding upon me, my representatives, heirs, assigns and next of kin, as they are upon the Student.

Project DreamCatcher Helping Native American Businesswomen Achieve their Goals

The Freeport-McMoRan sponsored Project DreamCatcher is a business education program in Glendale, Arizona, that aims to build the entrepreneurial skills of promising, high-potential Native American businesswomen. This unique program focuses on developing business skills for current and future business owners in the Native American communities. Scholars of this program will learn from Thunderbird's leading faculty in courses on marketing, financial planning, strategy, negotiations, project management, leadership and more.

This program will pair a successful area businessperson with each program participant to provide support and guidance on setting and achieving goals as the women return to their communities. Participants will be able to use their new business knowledge to succeed in their communities now as well as in the future - creating jobs, sharing knowledge, breaking down barriers, and improving lives.

Thunderbird for Good is partnering with The Phoenix Indian Center in the recruitment process of participants and mentors for the program. The Phoenix Indian Center's experience and expertise with Arizona's Native American communities will play an integral role in connecting us with women that will most benefit from our program, as well as addressing cultural and business environment elements that are unique to the Native American communities we will be serving.

This exciting program will be held in two, one-week modules in Glendale, Arizona, on the campus of one of the top-ranked international business schools in the world, Thunderbird School of Global Management.

MODULE 1 IS SCHEDULED FOR SEPTEMBER 15-19, 2014 MODULE 2 IS SCHEDULED FOR FEBRUARY 16-20, 2015

Project DreamCatcher is a fully funded program by Freeport-McMoRan Foundation. The only cost to the participant is transportation to and from Glendale for each of the one-week training modules, and the time and hard work that will be needed to make the best use of the program.

ELIGIBILITY:

- Participants must be at least 18 years of age
- Enrolled member with the Hualapai, San Carlos Apache, Tohono O'odham or White Mountain Apache tribes

Up to 25 current and potential women business owners will be selected for the program. Participants will be selected on the basis of applicable experience, passion for business growth and strength of business concept. Only business women who clearly communicate their drive and potential for success will be offered a scholarship to this highly impactful program.

* Please consider your availability when applying. If you are selected to participate you will be required to be on campus for the entire program*

Healthy Heart Introduction

Submitted by: Emmeline Powskey | Hualapai Healthy Heart

Hello everyone, this is Rosemary Sullivan, reaching out to you as the Diabetes Case Manager for the Healthy Heart Program in Peach Springs. I have been on the job since February 23rd,2O1S and I look forward to meeting and working with all the current participants as well as new referrals and anyone interested in learning about our program. Healthy Heart has been active in our community for the past 10 (ten) years. Our program emphasis is on promoting heart health using a program called "Honoring the Gift of Heart Health" that has been developed for American Indian/Alaskan Na-

tive communities. Cardiovascular disease (CVD) is the #1 killer of all Americans, including American Indians and Alaska Natives (A|/AN). The factors that increase a person's risk of CVD (such as high blood pressure, high blood cholesterol, obesity, smoking, physical inactivity and diabetes) can be reduced by making lifestyle changes. WE are here to help participants with the Gift of Heart Health information, learn about better food choices, and mixed with some motivation, think positive and create changes that will decrease your cardiovascular disease risks. Education & exercise are key components of this program, as well as healthy food choices.

We were recently notified by Indian Health Service that the Release of Information form (IHS-810) our program uses for access to participants electronic health record needs renewal. These forms are only good for 1 (one) year. If you are currently enrolled in the program and have not signed a new Release Form since December 2014, please stop by our office and get this done.

Our March Healthy Heart activities included a Lunch & Learn on "Hidden Salts" held March 10th & presented by Ms. Rebecca Rice, IHS Health Educator; a Healthy Cooking class on March 30th where participants made the "Three Sisters Stew & Whole Wheat tortillas". A copy of the Three Sisters Stew recipe is included with this article for all of you to try. This recipe is rich in protein and fiber and you can flavor using your favorite herbs and seasonings. Invitations were sent out to all current participants of the Healthy Heart Program for the Lunch & Learn and the Healthy Cooking class. Lf you did not receive an invitation please contact us and update your mailing information for our upcoming April events. We would also like input on starting up our garden. Please complete the garden survey (with your name & phone#) and return it to Healthy Heart or put it in the box we have set -up at the Walapai Market.

UPCOMING EVENTS: 4/14/15 - Lunch & Learn "Eat in a Heart Healthy Way"; 4/27/15 - Healthy Cooking Class (5:30 pm to 7:30 pm) "Chicken Chili Stew and Whole Wheat tortillas".

Our office is located at 926 Hualapai Way (Pink Trailer across from Health Department), Peach

Three Sister's Stew

Adapted from Chef Nephi Craig (WM Apache/Diné) who cooks for Sunrise Park Resort, Greer AZ

Three sisters - corn, beans and sound

This stew is a complete meal. Corn and beans together are a complete protein which means your body processes the nutrients just like meat!

Squash are rich in vitamin A. The corn, beans and squash are all high in fiber. If you add chilies and/or lemon juice, you add vitamin C. Perfect!

This recipe is only a <u>guide</u>. Feel free to try different kinds of beans and spices but always remember to use the three sisters, corn, beans and squash.

When you use canned beans and corn, drain off the liquid and rinse with water before using to reduce the salt content.

1 tablespoons of oil (try low saturated fat like olive or canola) Sauté (soften) a half a diced onion in the oil

Then add and cook til soft

- 1 diced or sliced zucchini
- 1 diced or sliced yellow squash

Then add 2 cans of beans, any of the following will work

- 1 can of kidney beans
- 1 cạn of pinto beans
- 1 can of black beans
- 1 navy beans

Add 1 can of whole corn

1 cup of chicken broth or bouillon cube (adds flavor, if you don't have it don't let it stop you!)

1-2 cups of water (add 1/2 cup at a time)

Add 1-2 teaspoons of thyme (adds flavor, again if you don't have it keep going)

14 cup of fresh chopped cilantro (optional)

Red chili flakes or canned/frozen or fresh green chili to taste

Salt, pepper and if you like garlic powder to taste

Continue cooking until all ingredients have simmered together and squash is soft Squeeze lemon or lime juice on top

COMMUNITYMESSAGES

On behalf of the Dashee Family. We would like to thank the KRMC Hospice Home Care, Tribal Administration, GCRC, Natural Resources, Public Works, Custodial Department, Elderly Department, 4-H Leaders, LDS Priesthood and community members who helped with our mother Pansy Suminimo services. Your support during our loss was of tremendous help. We do appreciate your thoughts and concerns and all the pretty flowers. To family and friends who travelled a distance to be with us.

Thank you!

Chief Justice

Hualapai Nation Court of Appeals

Jo Gamyu:je, there is a story called The Death of Coyote in the Walapai Ethnography that tells of how Coyote sat on a hillside watching Horned Toad, who had no tools or weapon, hunt sheep successfully and get meat. Coyote wanted to do the same. So Coyote asked Horned Toad what to do, which was to disguise himself

and hide beneath the waterfall where the sheep came to drink, then push one off to the ground. Coyote did just that and waited for the sheep. Soon one came and Coyote was successful at hunting sheep without any weapon. Coyote was so impressed with what he had done, chuckling, congratulating himself and thinking how clever he was, that he stopped paying attention. Still hidden beneath the waterfall another sheep came along and stepped where Coyote was hiding. The sheep's hoof pierced Coyote and the wound killed him.

A couple months ago, in February, the Hualapai Tribal Council pursuant to the Hualapai Constitution, Article VI, Section 7, reviewed the list of Courts of Appeals judges and renewed the names on the list. There were five names on the list: myself, Wes Williams, Jr., Patty Ferguson-Bohnee, Carole Goldberg, and Robert Clinton. A few days later pursuant to the Hualapai Law and Order Code Section 10.10 the Court of Appeals justices determined that I should sit as Chief Justice. Prior to this Justice Williams was Chief Justice. I am honored and grateful to the Council for appointing me and the other justices for selecting me to be Chief Justice. Over time I will introduce you to the Justices on the Hualapai Court of Appeals.

If you remember when I was Chief Judge I would write about constitutions and such and place them in the Gamyu. I will attempt to do the same again but focus writing on what is done in appeals. I think it is generally not understood by most people in any country and there are very specific things a Court of Appeals can do per the law and court rules. Of course, while judges never discuss cases while they are being heard, it is important and necessary to know how appellate decisions have affected the law overtime, which is something I will do in the writings. Most of the time people do not work hard at knowing the law until something happens and then are right there smack in the middle of a case and controversy that is considered in the law. I hope to help us learn more about the law together by writing and thinking with you in these community letters. In my personal definition of law I believe it to be what ties people together, connects community with its citizens. Law defines many relationships between people and groups, including government, it tells us what we can and cannot do in many respects. Law provides the foundation and framework for how our community is built, which can even come from "customs of the Tribe" that make our nation different from all others. While we have taken on many 'haygu' ways and learned how to do things we can still pay great attention and be mindful of Hualapai distinctiveness and design.

In my role as Chief Justice, while my legal education and all the books I have read have provided me tools, and weapons, to work successfully in law, I will not be like Coyote, and stop to congratulate myself. I intend to

Page 34

be attentive, always working at learning and fashioning new and better tools and weapons for successful hunting. But instead of meat I, and the Court of Appeals, seek justice, knowledge, balance, and ultimately want peace for our people now and for those yet to come. I will not become complacent or smug like Coyote in what I and the Court have done thus far. I will pay attention in order to do the best for my people and the Hualapai Nation. I look forward to this pursuit with all of you, if only just in our thinking, hopes, and wishes. Until next letter, Hankyu and Ha:nk Wayo:hiyu.
