*Our priority is the safety and health of the Hualapai Tribe. The Incident Management Team along with all of tribal departments and Indian Health Services are working together to prepare and respond to COVID-19 cases.*

## INCIDENT MANAGEMENT

---

Date: 7/16/20

To: Residents of the Hualapai Tribal Communities

From: Incident Commander

Re: **Preparing for a Lockdown Order**

The Hualapai Tribal Government and the Incident Command Team will be enforcing a **community lockdown** to help prevent exposure and to protect our people from the spread of COVID-19. No movement within the community will be allowed. Everyone should continue to be responsible and stay home. The “Stay at Home Order” is effective prior and after the lock down until further direction is provided.

### What Should You Do?

We understand there are challenges to holding any type of community lockdown and the ICT is working on addressing these potential issues that may develop.

To assist you in preparing for this shutdown consider the following:

1. Medication: be sure you have medication for one month for you and /or family members who take prescribed medication(s). Immediately contact the Peach Springs Clinic at 928-769-2204 for refills and or to seek medical attention.
2. Food: visually look at your food supply and decide if you have enough items to feed your household during this lockdown period
3. Transportation: Utilize the transit(s) for shopping prior to the lockdown taking affect. The transits will not be operating during the lockdown.
4. Freeze any meats and breads to last you throughout the week.
5. Purchase dry goods, noodles and canned items.
6. Ensure that you purchase toilet paper and personal hygiene items like bar soap, shampoo, and toothpaste.

- 
7. The local water source here in Peach Springs is good.
  8. You may need to purchase laundry detergent and cleaning supplies.

Locking down Peach Springs, the Buck & Doe vicinity and Valentine may be periodically held throughout this month to prevent the spread of the coronavirus.

You can do your part and prepare yourself and family for a lockdown. You may want to consider board games and activities you can play at home. Keep yourself busy with exercise and in house activities.
