Hualapai Tribal Chairman • September Update

Submitted by: Dr. Damon Clarke | Hualapai Tribe Administration

Gum yu je?

This week marks the 6th (sixth) month since we announced a State of Emergency March 17, 2020. January 21, 2020 was the day of the U.S. announcing the first COVID-19 positive case and since then we have been dealing with the virus and waiting for the possible cure. Right along with this is the upcoming Flu season. On that note, there will be Flu vaccinations available Sept. 25 at the Tribal Gym.

Our outlook seems to be bright, but again, as we first started; the challenges are still here as the health impacts have been incurred despite our actions taken by the tribal government and our Incident Command Team and members. We have closed our Grand Canyon West operations due to the virus and with knowledge that this enterprise is owned by the Tribe and we rely on these government-owned businesses to generate revenue for essential community service that include social services, public safety, police, courts, education, and so forth. We have been hit very hard economically, socially, emotionally, spiritually, and physically. As you know, we have had 13 deaths with the virus, and cannot offer what we did in the past, as we joined together to mourn traditionally.

We know that the recovery of our business will take time. We know the road back to economic recovery will be difficult, especially with the establishment of our tourists with the helicopters, buses, and other types of operations.

As we begin our crawl to move forward, all Tribal Nations, as well as Hualapai must continue to protect the people, this is our first obligation; and we must do this with good intentions and minds and with the understanding that we do this with the future in mind- the children of our People. We also must keep our elders protected as they are our history; the core of our young people and people that are in the early 20s to 50s, please take care of yourselves. Our Grandparents and forefathers/foremothers struggled with health, education, and the social problems in the past and they still prevailed. We need to work together to make our place better. We are on the right path, and yes, we all don't agree upon everything that happens, but..., the Virus is still here.

We cannot predict the future, but if we can work towards a time of lifting the restrictions and re-opening we must apply our success to our own self-discipline. We will adjust to the daily, and weekly issues of this Pandemic as we move forward. That's what we need to do, it is sometimes difficult to see the big picture when the things on the news look different to our view. But, when we see the local issues, which is not being on the news, we tend to find things on Facebook, Twitter, and the social media to air and believe those things.

As we hope for the managing of the pandemic to be leveled at a long term basis, we will return to what was "Normal". When that happens, hopefully by then a vaccine may be available to the country and to us. Some tribes are going to take the "testing" of the vaccine to see the effects of a cure, but that will also take some time.

Focus on what you are doing because we have done all we can do, but again, the

Choice is Yours, we must respect this virus and prepare for anything that could be next. We are working to allow for wood cutting, hunting, and things for the upcoming months. We don't know when this is all going to come to a close, but be patient. We are happy you have been patient for the past 6 months, so keep it up.

In closing, I would like to leave you with a thought that brings us to this time: "Fighting for life is not through violence. We are asked to fight for life through the way of the peaceful warrior. The way to claim our personal right of living well is by walking through life as peace-makers, turning from malice, revenge, bitterness, envy, hatred and negativity. When these traits are not present, we can naturally celebrate our lives with joy." (Sams, J., Earth Medicine)

If you turned age 18 and would like to register to vote in this election, the Tribal Office does have applications, or you can go to My.Arizona.vote or Elections@azsos.gov.

Hualapai RV Park Community Survey • Wednesday, September 30th

Submitted by: Kevin Davidson | Hualapai Planning Department

Hualapai Planning & Economic Development Department Hualapai RV Park Community Survey

The Hualapai Tribe has been exploring the possibility of developing an RV Park on the reservation for several years given the Tribe's unique location on historic Route 66 and being located along the south rim of the Grand Canyon. Peach Springs is only 17 miles from the Canyon and has the only road access to the Canyon at Diamond Creek. This unique location serves as a major tourist attraction on the reservation. Route 66 enthusiasts, individuals, couples, families, and hunters that travel through Peach Springs year-round are looking for an RV Park to stay.

Currently, there are (3) three general locations to be studied including one in Peach Springs at the intersection of Buck and Doe Road, one southwest of Peach Springs in what is known as the Truxton Triangle and one East of Peach Springs at the intersection of Hwy 66 and Indian Route 18 - road to Supai Village.

Southwest Business Development Consultants, LLC (SWBDC) has been selected by the Hualapai Tribe to develop the study. SWBDC has formed a partnership with Ritoch-Powell & Associates, Merge Architectural Group and Data Management of NM LLC, to develop the Hualapai RV Park Feasibility Study.

The project team is requesting the Hualapai Community to provide vital feedback and recommendations, which encourage entrepreneurship, small business development activities, promote new job creation opportunities, RV Park amenities and the overall positive or negative effect of the RV Park on the local community. This is a great opportunity for Tribal members to voice your feedback on the overall planning process of the project. Please provide your feedback by September 30th – Thank you !

Peach Springs Health Center • Flu vs COVID 19
 Submitted by: Rebecca Rice | Indian Health Services, Public Health Nurse

FLU Verses COVID-19

Because some of the symptoms of FLU and COVID-19 are similar, it may be hard to tell the difference between them based on symptoms alone, and testing may be needed to help confirm a diagnosis.

It is possible to test positive for FLU and the virus that causes COVID-19 at the same time.

Things that are the same between FLU and COVID-19

- ⇒ Contagious respiratory illnesses, but they are caused by different viruses
- ⇒ Fever or feeling feverish/chills
- ⇒ Cough
- ⇒ Shortness of breath or difficulty breathing
- ⇒ Fatigue (tiredness)
- ⇒ Sore throat
- ⇒ Runny or stuffy nose
- ⇒ Muscle pain or body aches
- ⇒ Headache
- ⇒ Some people may have vomiting and diarrhea, though this is more common in children than adults

Influenza (FLU) and COVID-19 are both contagious respiratory illnesses, but they are caused by different viruses. COVID-19 is caused by infection with a new coronavirus (called SARS-CoV-2) and FLU is caused by infection with influenza viruses.

Some key differences between FLU and COVID-19

Influenza (FLU)

- ⇒ Immunization
- ⇒ Treatment with antivirals
- ⇒ Recover in a few days to less than two weeks

COVID-19

- ⇒ **Currently there is no immunization to prevent COVID-19.**
- ⇒ Loss of taste and smell
- ⇒ Blood clots in the veins and arteries of the lungs, heart, legs or brain
- ⇒ Multisystem Inflammatory Syndrome in Children (MIS-C)

The New Coronavirus (COVID-19) and its Potential Effects on the Body

MOST PEOPLE WITH COVID-19 DISEASE WILL HAVE NO SYMPTOMS OR WILL HAVE MILD-TO-MODERATE SYMPTOMS. SEVERE DISEASE IS UNCOMMON. TALK WITH YOUR HEALTH PROVIDER IF YOU HAVE SYMPTOMS OR THINK YOU HAVE BEEN EXPOSED.

LOCATION	SYMPTOM
WHOLE BODY	Common: Tiredness, muscle aches
BRAIN	(A) Common: Headache Uncommon: Some patients have strokes, seizures, and confusion.
EYES	(B) Uncommon: Pink eye (conjunctivitis)
NOSE AND TONGUE	(C) Common: Loss of the senses of smell and taste
THROAT	(D) Common: Sore throat
LUNGS	(E) Common: Cough, mild shortness of breath Uncommon: Difficulty breathing. Some patients will have serious difficulty breathing and will need a ventilator.
HEART	(F) Uncommon: Infection can lead to blood clots, heart attacks, and cardiac inflammation.
LIVER	(G) Uncommon: Some hospitalized patients suffer liver damage.
KIDNEY	(H) Uncommon: Kidney damage occurs in most severe cases. Patients may need dialysis.
INTESTINES	(I) Common: Loss of appetite, diarrhea
FINGERS AND TOES	(J) Uncommon: Decreased blood flow can lead to swollen, painful fingers and toes. This is more common in children and young adults.

Older Age and Pre-Existing Conditions Increase Risk for Severe COVID-19 Disease

Older adults are at a higher risk for serious complications or severe disease. Adults over the age of 60 years old account for the majority of deaths from COVID-19.

In addition, patients with diabetes, obesity, or high blood pressure are more likely to develop serious disease.

YOU ARE NOT ALONE

1 in 5
youth and young adults lives
with a mental health condition

WHAT TO SAY

I haven't felt right lately and I don't know what to do. Can I talk to you about it?

I'm having a really hard time lately, will you go with me to see someone?

I'm worried about stuff that's going on right now, do you have time to talk?

WHAT TO DO

Getting help early for mental health matters in keeping your life on track.

Your first stop is your primary care doctor, to rule out other physical health conditions

Be honest about what you're feeling and be clear about what you want

Ask for help finding a therapist or mental health specialist that works for you

KEEP IN MIND

It can take a while to get an appointment with a specialist.

If you need to see a specialist right away, speak up to get an appointment sooner.

CONNECT WITH OTHERS

Lots of youth and young adults live with a mental health condition. You can connect with them at OK2Talk.org. Also, look in your community for peer and support groups and you will discover that you are not alone.

Taking Charge of Your Mental Health

FIND THE RIGHT SPECIALIST

Ask your doctor or nurse to help you find a specialist and make your first appointment

There may be a long wait for your first visit, so speak up if you need to see someone right away

If the first mental health specialist you see isn't a good fit, keep looking for one who works for you

DON'T FORGET!

- > Surround yourself with family and friends
- > Talk to a counselor, social worker, nurse or trusted adult
- > Continue doing what you love: reading, sports, writing, nature walks, creating art

MAKE YOUR FIRST APPOINTMENT COUNT

Be ready to talk about your health history and what you're experiencing

You may be asked to fill out a questionnaire describing your mental health experience

Be clear about what you want and need to get better

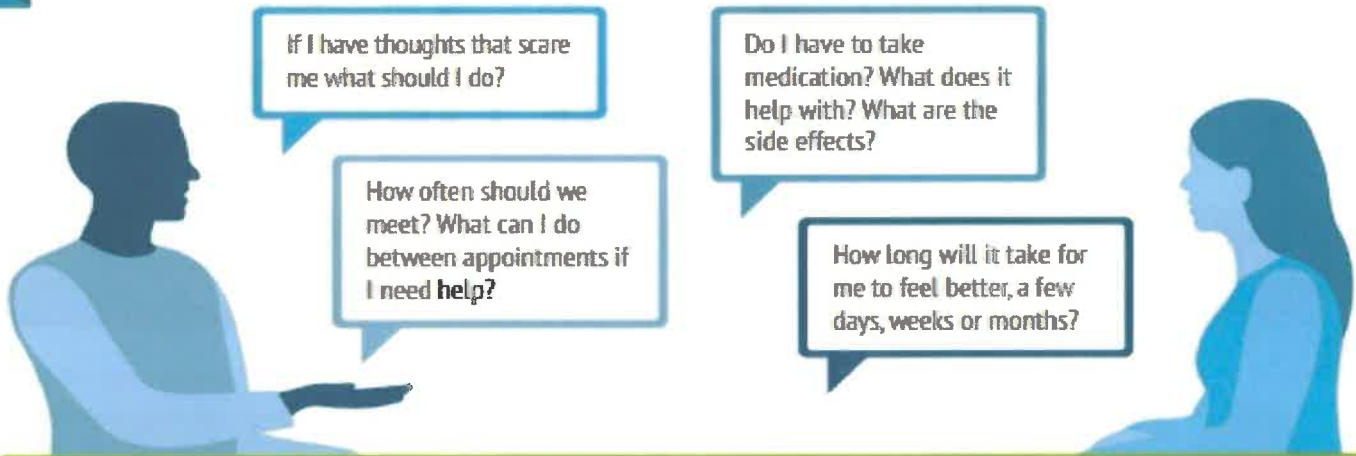

Ask the mental health specialist to explain treatment options so you understand the plan and what you need to do

NAVIGATING YOUR INSURANCE

- 📍 Involve someone with experience to help you
- 📍 Call your insurance company to ask what mental health benefits are covered
- 📍 To find a provider, visit your insurer's website or call the number on your insurance card

ASK QUESTIONS

STAY INVOLVED

Keep a wellness log and monitor your progress

Ask for changes if your treatment plan is not working for you

Stick with it; most therapies and medications take time to work

Your treatment plan may change, so be an active partner in this process

LIVE WELL

- Remember that you have control **over** living well
- Find a routine that works for you that includes a healthy diet, exercise and regular sleep patterns
- Stay close to your support network. Engage family, friends, teammates and your faith community. Think about joining an online community
- Be realistic and mindful of your needs and know your limits

GETTING THROUGH IT

- > Try staying away from drugs and alcohol. This is not always easy, so find strategies that work. Using drugs or alcohol to feel better is harmful to you.
- > If you use alcohol or drugs, be honest and tell your therapist or doctor because it affects your care plan.
- > Stay positive. Surround yourself with positive messages, people and activities. This will help you to feel better.
