Dedication of Hualapai Veterans’ Highway
July 6, 2021, Route 66 Park, Peach Springs, Arizona

With the help of Arizona State Senator Jamescita Peshlakai, Hualapai Tribal Council, Arizona State Board on Geographic & Historic Names and ADOT, Hualapai Veterans are getting much needed recognition for over a century of service in the United States armed forces. From the Meuse-Argonne Offensive of 1918 to service in Iraq and Afghanistan, over 200 Hualapai have served their country with seven making the supreme sacrifice in battle.

This service and sacrifice is emphasized in the state legislation as follows: Native Americans have served in the armed forces with the highest record of military service of any group in the United States, that the courage, determination and fighting spirit of Native Americans have strengthened and continue to strengthen the United States, including the United States armed forces, that Native Americans have made the ultimate sacrifice in defense of the United States, even in times when Native Americans were not citizens of the United States, and that members of the Hualapai Tribe valiantly served in World War I, World War II, the Korean Conflict and the Vietnam War, and many serve in the United States armed forces today.

Members of tribal council, past and present, were on-hand Tuesday afternoon, July 6, to recognize the service and sacrifice of their fellow Hualapai and to receive the four new signs that will be placed along the 80-mile portion of historic Route 66 between Kingman and Seligman. Mike Whatoname, a veteran of the US Army and Arizona National Guard, performed a set of Hualapai birdsongs to commemorate the event.

This portion of State Route 66 has been designated the “Hualapai Veterans Highway” for all time. Hankyu!
HUALAPAI VETERAN’S HIGHWAY DEDICATION
JULY 6, 2021

We, the Tribal Administration office were notified on July 6th that the signs for the Hualapai Veteran’s Highway were going to place on Route 66 on July 7, 2021. So, in spite of not being notified of this historic event, we tried our best to notify the Departments, the community of dedicating the signs prior to placements. We announced this on the radio as well as we could, the signs were going to be delivered to the downtown Park at 3:00 p.m. 07/06/2021. At least we had that much known before placement on the roads. The following was stated:

“To all of you that have gathered here today. It brings me honor and pride to give this day at time to place in our history. We have been blessed to have people that have looked into what this day means to our Hualapai Veterans. At Hualapai, we want to thank Representative Jamescita Peshlakai and other AZ State Representatives their time, efforts and passage of this Honor and naming. We also want to thank and acknowledge Mr. Mike Whatoname for his grass roots efforts to this cause. He was key to honor our Veterans. As former Vice Chairman Mr. Philbert Watahomigie and I stood to testify at the office of Highway/Transportation in Phoenix, we were honored to speak on behalf of our Veterans and this cause.

Here, in Hualapai, this dedication and sign is a big deal. It is not just a sign—it is a symbol. It is a reminder that every man and every woman that dedicated their lives for our freedom is recognized. From Kingman to Seligman, and visa/versa it will symbolize and honor our Hualapai Veterans. This will impact our lives moving forward as this is history in the making.

Thank you. Hualapai Veteran, We honor you.” Mr. Whatoname spoke on the reasons of why this came about, the past Veterans, the present, and his dream of this event. There were Council members Powskey, Tapija, Marshall, Watahomigie, Tapija present and made their presentations to the small group. We had a few Veterans present and again, we apologize to the shortness of this announcement. Otherwise the signs were being placed without knowledge.

Hualapai Business License Draft Ordinance available for your Review and Comment

• Introduction
  - The Hualapai Tribe is approached from time to time by both tribal members and non-tribal members seeking to establish a business on the Hualapai Reservation.
  - On May 6, 2021, tribal council directed the Planning Department to update the tribe’s business ordinance which dates to 1946.
  - Tribal council then appointed a seven member committee to assist Planning with the update.
  - The committee presented the draft ordinance to tribal council at their July 10 meeting and council directed the draft ordinance be published for 30-day review.

• Ordinance contains language
  - To ensure that residents of the Reservation enjoy adequate employment, health care, education opportunities, and social services, and
  - To promote economic development on the Reservation, trust and fee lands, and
  - To identify and regulate all applicable persons and entities doing business on the Reservation, trust and fee lands, and
  - To ensure that safeguards are in place to promote the peace, safety, morals, and general welfare of the Tribe, and
  - To protect sovereign immunity, collect fees, and provide judicial review,
  - To provide exemptions, classes, terms and conditions for licenses, as well as grounds for denial and revocation of licenses, and
  - To enforce fines and penalties on those not following the ordinance.
A - TITLE, AUTHORITY AND PURPOSE

1. This Act shall be known as the Hualapai Business License Ordinance. Any prior business license ordinances or codes imposed by the Hualapai Tribe are repealed.

2. The Hualapai Tribe establishes the ordinance pursuant to Article V, Section L and O of the Constitution of the Hualapai Indian Tribe of the Hualapai Indian Reservation.

3. Purpose

a. The Hualapai Tribe has existed as an independent, sovereign tribe since time immemorial. Today, the tribe continues to govern the Hualapai Indian Reservation, its trust lands, and properties held in fee title, limited only in its authority by its Constitution and the Constitution and laws of the United States.

b. The Hualapai Tribal Council is the governing legislative body of the Hualapai Tribe and has the sole and exclusive authority to grant, deny, or withdraw the privilege of doing business within the Reservation, trust and fee lands, except where such authority is limited or withdrawn from the Tribe by the applicable laws of the United States.

c. The tribal council is responsible for economic development on the Reservation, trust and fee lands and seeks to ensure that residents of the Reservation enjoy adequate employment, health care, education opportunities, social services, and other governmental services.

d. It is the policy of the Hualapai Tribe to promote economic development on the Reservation, trust and fee lands. To achieve that goal, the Hualapai Tribe is adopting a business license program to identify and regulate all applicable persons and entities doing business on the Reservation, trust and fee lands.

e. The Hualapai Tribe has a primary interest in regulating the conduct of business and trade on the Reservation, trust and fee lands to ensure that safeguards are in place to promote the peace, safety, morals, and general welfare of the Tribe. It is therefore appropriate that all persons who exercise the privilege of engaging in business on the Reservation, trust and fee lands register and obtain a business license from the Hualapai Tribe through its _______________ Department (see B.3 below).
B - GENERAL PROVISIONS

1. Sovereign Immunity - The Hualapai Tribe and all its constituent parts, subordinate organizations, boards, and committees are immune from suit in any jurisdiction except to the extent the Hualapai Tribe or the United States Congress has expressly and unequivocally waived such immunity. PREPARING FOR THE FIRST DAY OF KINDERGARTEN STARTS NOW

If you have a preschooler who will be entering kindergarten this fall, it’s not too early to start getting them ready. As Arizona’s early childhood organization, First Things First (FTF), has many suggestions on what families can do at home to prepare their child. The FTF Kindergarten Readiness page, found at https://www.firstthingsfirst.org/resources/kindergarten-readiness/, is a resource for parents and caregivers to help children be prepared for school success.

Some ways to help your child transition to kindergarten include:

- Before the first day, talk with your child about what to expect during the school day and types of after-school activities they may be involved in. The more details kids know, the less anxious they will feel.

- Read with your child at least 20 minutes per day. Try books that repeat words. Ask questions like, “What do you think happens next?”

- Talk with your child everywhere – at home, in the car, at the store. Have real conversations with your preschooler. Make up stories or songs about your outings.

- Rehearse for the big day with test-runs of the new routine.

- Writing begins with scribbling. Give your child safe writing tools to play with, like crayons, chalk or markers and blank paper. Ask your child to tell you about their drawings. Also, writing requires fine motor strength. Your child can build hand strength by playing with play dough.

- Teach your child how to use the bathroom by themselves, to wash their hands after going to the bathroom and before eating, to blow their nose and sneeze into their elbow.

- Since preschoolers may be in places where cloth face coverings are required, help them get used to wearing them. The American Academy of Pediatrics offers reassurance that mask wearing becomes routine when reinforced by adults and peers, just like wearing a bicycle helmet and buckling into their car seats.

By turning everyday moments into learning moments, we can send our young kids to school with the skills and confidence that will help them succeed in kindergarten.

COVID-19 Delta Variant: What Community Members Need to Know

COVID-19 cases are rising in some tribal communities due to a new strain of the virus called the Delta variant. This fact sheet summarizes what you need to know to stay safe from Delta:

- The Delta variant spreads much more easily and quickly than previous strains of the virus.
- Unvaccinated people are at high risk of getting sick from Delta.
- People who have been fully vaccinated are well protected against severe disease from Delta.
- Delta is just one strain of COVID-19. The virus will continue to change and make new strains as it spreads from person to person.
- Vaccines are highly effective against all known strains of the virus. Get vaccinated today to protect yourself, your family, and your community against new strains of COVID-19.

How contagious is the Delta variant?
The Delta variant is much more contagious and spreads much faster than earlier strains of the virus.
The Delta variant has spread rapidly in the US. In June, Delta was responsible for just 10% of all cases of COVID-19 in the US. That number jumped to 50% in July. Increasing rates of infection show that Delta is highly contagious.

How effective are vaccines against the Delta variant?
All 3 available vaccines are highly effective against the Delta variant. Recent studies have shown all 3 vaccines provide significant protection against illness, hospitalization, and death from Delta. Vaccination is the best way to protect you and your family from Delta.

Am I at risk of getting sick from the Delta variant?
People who have not been vaccinated are at very high risk of getting sick from Delta. Fully vaccinated people are at very low risk of getting sick from Delta. Masks help prevent the spread of variants. People who are not fully vaccinated should wear a mask in indoor public places and crowded outdoor settings.

What is the Delta Plus variant and should I be concerned?
The Delta Plus variant is a new strain of COVID-19 that was first discovered in April. It is unknown whether it is more contagious than the previous Delta variant. The best way to protect yourself against all strains is to get vaccinated.

Mohave County Awarded Two Grants Totaling Nearly $1 Million: Durable Bridge Over Truxton Wash & Griffith Park Road Improvement

MOHAVE COUNTY, AZ (June 7, 2021) – Mohave County is among the beneficiaries as the U.S. Department of Transportation’s (USDOT) Federal Highway Administration (FHWA) announced more than $5.6 million in Accelerated Innovation Deployment (AID) Demonstration program grants to help seven states make the most of limited resources. The program allows states to bring projects to fruition in a more cost-effective way by using innovative practices. Alabama, Arizona, Michigan, New Hampshire, Rhode Island, South Dakota and Utah will receive money for their respective projects.

Mohave County and its ADOT partner will receive $448,300 in grant funds and the County will use Composite Arch Bridge System (CABS) technology to build a durable bridge crossing on Antares Road over Truxton Wash with reduced road closure times and construction costs. Used for the first time in Arizona, CABS provides rapid, simplified construction and arches that can be easily transported and put in place without heavy equipment or large crews. ADOT will administer Project design and construction on behalf of the County, which secured the discretionary award of competitive grant funds received.

Currently, Antares Road is a native/dirt arterial roadway, and the crossing of the Truxton Wash is an at-grade dip, subject to frequent, storm-driven closures when the Wash conveys storm water flow. In 2017 alone, Antares Road was closed for a total of 43 days because of flowing water in Truxton Wash. This new project will eliminate a 28.5-mile longer alternate routing during periods of Antares Road closures.

In its grant application, Mohave County emphasized that this bridge would be “an innovative, cost-efficient solution toward delivering an all-weather crossing of Truxton Wash and subsequently permitting the County to pursue hard-surfacing of 32 miles of Antares Road.”

Antares Road is a federally classified rural major collector maintained by the County and inventoried as Indian Reservation Road No. C149 by the Hualapai Tribal Nation. The Tribe recognizes Antares Road as a major route in the Tribe’s current long-range transportation plan that serves the Hualapai Indian Reservation influence area encompassing access to employment centers, schools, Tribal headquarters and essential/emergency services. The grant money will be coupled with Mohave County’s matching funds to complete the project. The timeline for this project is anticipated to be completed within a year from now. It is expected to be immediately beneficial to all those utilizing the area. Mohave County has also been awarded $500,000 in Arizona Commerce Authority grant funds, with the county matching 42% ($358,240) for a new 2.5-mile section line gravel ad bisecting the eastern Griffith Industrial Park area (directly off I-40, 13 miles west of Kingman) that delivers the first Mohave County maintained road serving 1,128 acres of heavy manufacturing zoned vacant land ready for development with its access to electric and water utilities, as well as, Interstate 40 Exit 37 (Griffith Road). The Mohave County Board of Supervisors established Apache Road – citing its importance to the already established Griffith Industrial Park – as a county highway in February 1999 under Resolution No. 99-59. Apache Road construction provides an essential link toward attracting new large scale commercial and manufacturing firms within its area, making for cost-effective investment of Economic Strength Projects and Mohave County matching funds. These typically represent high revenue and job intensive uses in the general processing and manufacturing of materials or products.

Endangered Black-Footed Ferrets Proposed for Reintroduction Throughout Arizona
40-Million-Acre Range Expansion Would Also Include New Mexico, Utah

FLAGSTAFF, Ariz.—The U.S. Fish and Wildlife Service proposed today to reintroduce endangered black-footed ferrets to four new areas in Arizona once their prey, prairie dogs, have increased sufficiently in numbers. A fifth area’s prairie dog population needs more growth and would be considered for ferret reintroduction later.

“Black-footed ferrets are not just exceedingly cute, they also play a fascinating evolutionary role as specialized predators of prairie dogs,” said Michael Robinson at the Center for Biological Diversity. “Returning these animals to a much wider area represents a welcome commitment to increase the numbers and distribution of prairie dogs and start healing our much-abused arid grasslands.”

A small population of black-footed ferrets was first reintroduced to northern Arizona in the 1990s. Today’s proposal could increase the eventual range of the ferrets to more than 40 million acres of potential habitat elsewhere in northern Arizona, along with eastern and southeastern Arizona, northwestern New Mexico and southeastern Utah.

The first four potential reintroduction sites would be in the Williams and Tusayan ranger districts of the Kaibab National Forest, the CO Bar Ranch, Petrified Forest National Park and near a reservoir called Lyman Lake. A fifth area, on Las Cienegas National Conservation Area, supports a reintroduced prairie dog population that must still grow substantially before it could support ferrets.

The federal proposal would also facilitate reintroduction to sovereign Tribal lands of the Hopi Tribe, Hualapai Tribe and the Navajo Nation, if any of these entities decide to reintroduce ferrets. The Navajo Nation is the largest Indian reservation in the United States and comprises more than 17.5 million acres in Arizona, New Mexico and Utah.
“Forty years ago just 18 individual black-footed ferrets survived,” said Robinson. “Thanks to the Endangered Species Act, hardworking biologists, and a forward-thinking Biden administration, we can now begin to envision the ferrets sufficiently recovered to never again teeter on the brink of extinction.”

Background
Ferrets are members of the mustelid family, which includes otters, weasels and skunks. Black-footed ferrets evolved to prey on prairie dogs and nearly went extinct in part because of a federal program to systematically poison prairie dogs on behalf of the livestock industry beginning a century ago.

In 1981, two years after the black-footed ferret was believed to have gone extinct, a small population was discovered in Wyoming. When that population became threatened by introduced sylvatic plague, the last 18 ferrets were captured alive. Fifteen of them, representing the genetic equivalent of seven distinct founders, were used to start a captive population that has been used for reintroduction in several western states.

Recovery of the black-footed ferret has been hindered by continued persecution of prairie dogs, which suppress their numbers and limit their distribution, as well as by recurring outbreaks of plague.

The Center for Biological Diversity is a national, nonprofit conservation organization with more than 1.7 million members and online activists dedicated to the protection of endangered species and wild places.

I started working for Grand Canyon Resort Corporation in the IT department 6 years ago. I started as phone support and help desk. After a year I was promoted to the Tech 1 desk technician position. After time training with the System Admin at that time I was able to get my CompTIA A+ certification. After three years of being a Tech 1 I was chosen to become the new System Administrator. When I received the promotion I quickly got more certifications in Networking, Security, Cloud Management, and Wireless management. These proved useful when rebuilding our network and setting up new security protocols.

Since being the System Administrator I have rebuilt our network, updated our phone systems, moved our file sharing and email servers to the cloud, moved out accounting and HR servers to the cloud, updated our endpoint and email security systems, replaced radios that communicate between switches, updated our email and user based directories, installed a new photo sales system, and upgraded and programmed two new data centers. This work has proved to be very helpful during the closure as it made it easier for the users to work remotely from their homes. The thing I am most of proud of is that the email security that I deployed stopped a known malware attack that hit the City of Kingman. This saved us from a hard time and potential lost revenue.
Hello my name is Phyna Cook. I am Havasupai and Hualapai. I was raised in Supai village and I speak the Havasupai Language. During the summers I would visit on the Hualapai Reservation. I started working during the summers with Hualapai River Running from 2006-2008 as a seasonal swanmer/packer. 2010 I returned to work with River Runners as a river guide, then returned to college in Phoenix, Az.

In 2012 I returned to River Running as a River Guide, as the rafting season started, I transferred to Pontoon as a greeter then became a pontoon river guide. I have always loved being outdoors and next to the river. Currently I am still working with pontoon as Interim Pontoon Manager. I am grateful to have gotten this opportunity to try new things.
