Community Message from Hualapai Tribal Administration

As you may or may not have heard the Tribal Administration Office was hit with a number of positive COVID-19 cases last week.

The Tribal Council, on December 29, 2021 found a need to put someone in charge to oversee the daily functions of the Tribal Administration, therefore they elected me, Jolene Marshall, as Interim Tribal Administrator to oversee the daily functions of the administration. This appointment is temporary until such time the Chairman or Vice Chairman returns to resume their positions, my temporary appointment will not exceed 10 days.

It was the recommendation of the Emergency Response Team to raise the color code to Red Alert effective immediately due to an increase of positive cases and also based on contact tracking resulting in community spread. We are in Red Alert for 14 days; which will expire on January 11, 2022.

Tribal employees were put on Administrative Leave from December 28, 2021 to January 5, 2022, with Director’s and essential workers continuing to run their offices. All tribal employees are to be tested by their department director upon return to work on January 5, 2022 8:00 A.M.

As of today, January 5, the Administration continues to function without interruption, payments and payroll have been processed with the help of the Finance employees that remained working.

My intent was not to make change or make governmental decisions on issues pending; I felt these decisions can wait until the return of the Chairman or Vice-Chairman.

I want to say thank you to Annabel, Rison, Shanna and Addie for their help in directing me in the process of administrating the office. It has been an eye-opening experience as to the finance process of the Tribe.

And Thank You to all the Directors for their cooperation.

Jolene Marshall, Interim Tribal Administrator

Hualapai Tribe Response
COVID-19 Alert Notification
December 28, 2021

Press Release/Public Notification
COVID-19 Alert Notification
Elevated Response: Red Alert

On July 01, 2021 the Hualapai Tribal Council passed Resolution 44-2021 regarding revisions to the Color Coding Alert System for COVID-19 Response on the Hualapai Reservation.

Communicable disease and COVID-19 still active, Community Spread is evident through contact tracing and monitored by Health Officials. Based on recent contact tracing it has been determined to elevate the Color Coding Alert to a RED ALERT.

The Hualapai Nation COVID-19 Color Coding Alert will be at RED ALERT, effective Immediate; December 28, 2021 until it is determined to deescalate.

Here is a breakdown of the provisions of a RED ALERT on the Hualapai Reservation:

- **CURFEW** enforced from the hours of 8pm to 5am for individuals 17 and under to slow the spread of COVID-19 virus. PARENTS will be responsible for children out after curfew.
- **MASK WEARING** is Mandatory throughout the Hualapai Reservation regardless if the individual’s vaccination status.
- **ALL Non-Essential ACTIVITIES** are prohibited; All in-person, non-essential activities (not to include school, daycare or work) are to be suspended for a period of 14 days, up to but not to exceed 21 Days.
  - NO FOOD VENDING.
  - Memorial or Traditional Wakes are limited to 40 People, mask’s are mandate and CDC guidelines followed with all precautionary measures in place. *Refer to Wake protocol attached**
  - In addition to tribal departments, travel will be ceased during RED ALERT.
- **Stay Home, Stay Alert in Place.** Community members are encouraged to stay at home with the exception of essential needs, community members should only travel outside the boundaries of the reservation for essential supplies.
- **House to House visiting is prohibited**

**Although this is not a "lock-down”, Law Enforcement and Security will be contacting individuals throughout the day/night and ensuring those that are traveling throughout the community are doing so for an Essential Need, not just roaming around, visiting multiple residences and transporting COVID.**

Community members are always encouraged to get vaccinated. Vaccination are held Monday thru Friday, for more information about vaccination, contact the Peach Springs Health Center at 1-(928)-769-2900.

Any other questions about RED ALERT, contact (928)-765-0001

COVID-19
Understanding Isolation and Quarantine

1. If you have any symptoms such as fever, body aches, chills, sore throat, loss of taste or smell, self-quarantine and make an appointment for a COVID-19 Test by calling 769-2900.

Remember, if you are sick, you can get others sick.

Self-Quarantine: Once you test, self-quarantine until you know the results of your test.

If you test Positive: You will be placed on isolation for Ten Days and monitored daily by a H S Public Health Nurse either by telephone or direct home visits.

Exposure to a Positive Person: If you have been exposed to a Positive Person, Self-Quarantine for 7 days, get tested 3 to 5 days from the exposure date.

Quarantine: Means stay home when you have been exposed to see if you become sick.

Isolation: Means STAY HOME while you are sick. Everyone in the household must isolate-in-place and will be monitored by the Public Health Nurse.

Isolation-Quarantine will NOT end until you have been directed by the Public Health Team, if you violate the terms of isolation or quarantine you are subject to hefty fines that may include jail-time.
The Situation in Mohave County Hospitals is Serious
Submitted by: Hualapai Emergency Response Team w/ permission of Kingman Regional Medical Ctr

The ongoing pandemic is threatening your access to healthcare.

At any time, you or a loved one might need our support. Heart attacks. Car accidents. Stroke. Appendicitis.

Now, an ominous question looms—Can you get care from your local community hospital without delay?

Today, that’s uncertain.

We need you to know the facts
Every hospital in Mohave County is severely strained, with high volumes of COVID-19 patients. These patients spend more time in the hospital than patients with other conditions. Our staffed patient beds are full, and our emergency rooms and urgent cares are backed up.

The problem is being compounded by a nationwide shortage of healthcare workers. Our local hospitals do not have enough staff, and outside help is becoming scarce. Other hospitals in Arizona and Nevada are in the same situation and are less able to take additional patients from our full Mohave County hospitals. In short, few resources are available to relieve our overworked and exhausted personnel.

Our situation is serious, so we are taking this unprecedented step to notify the public. If the number of people needing hospitalization were to exceed available resources, we could find ourselves in the worst-case scenario—when patient care must be triaged, like on a battlefield. We never want to get to that point and need your help.

We need your cooperation
Even with the current circumstances, never delay in seeking proper medical care for an illness or injury. This is vital for preventing you from getting worse and for avoiding hospitalization.

Learn about same-day medical services available to you in your area, such as online telemedicine services, urgent care, and sick appointments with your primary care provider. If possible, please use those resources for conditions that are not a medical emergency to help alleviate strain on our busy emergency rooms.

However, if you have a medical emergency, it is extremely important to call 911 or go to your nearest emergency room. Providing life-saving care is always our highest priority!

We need you to protect your health
Please do all you can to protect your health:

- Maintain a healthy lifestyle—eat right, exercise, and get enough sleep,
- If you have a chronic condition, take your medications as directed by your doctor,
- Get the COVID-19 vaccine and booster to reduce your risk of severe illness and hospitalization,
- Avoid crowded places, but if you must go, wear a mask, and
- If you have COVID symptoms, get tested immediately—you may be eligible for treatments that can reduce your risk of hospitalization.

We need your understanding
Our dedicated healthcare workers are doing everything they can to take care of you when you’re sick. But these are not normal times and some less critical patient services have been disrupted. Please understand we are doing our best under very difficult circumstances.

Correcting Myths About the COVID-19 Vaccine

False information about the COVID-19 vaccine has been spreading online and in our communities. This fact sheet will address and correct the most common falsehoods about the COVID-19 vaccine.

Myth #1: The COVID-19 vaccine will impact my pregnancy or fertility.

FALSE. There is no evidence that COVID-19 vaccines can impact your pregnancy or ability to have a healthy child. COVID-19 vaccines are recommended for those who are trying to get pregnant, are pregnant, or might want to become pregnant in the future.

Myth #2: If you were sick with COVID-19 before, you don’t need the vaccine.

NOT TRUE. The COVID-19 vaccine provides stronger, longer-lasting protection from the virus than prior infection. A 2021 CDC study found that those who were unvaccinated and had a recent infection were 5 times more likely to get COVID-19 than those who were recently fully vaccinated and did not have a prior infection.

Myth #3: The vaccines will not work on new strains of the virus.

WRONG AGAIN. There have been many different strains of COVID-19 since the vaccine was approved in December 2020. The vaccine has remained extremely effective against severe illness, hospitalization, and death from all strains of the virus, including Omicron.

Myth #4: Not much is known about the COVID-19 vaccine.

INCORRECT. Though the vaccine was developed in record time, the science behind it has been studied for decades. Since the vaccine was approved in winter 2020, there have been a record number of studies about its safety and effectiveness, making it the best-studied vaccine in history.

Do I need a COVID-19 booster shot?

Booster shots are now available for those who received the Pfizer, Moderna or Johnson & Johnson COVID-19 vaccines.

If you received Moderna or Pfizer, a booster is recommended IF:

- You are 65 years or older
- You are 18 years or older AND
  - Have underlying medical conditions or are currently pregnant or breastfeeding
  - Work in a high-risk setting such as a health care facility or school
  - Live in a high-risk setting such as a correctional facility or long term care setting

STRENGTH
Protecting our children is an investment in our present and future

Although fewer children have been infected with COVID-19 compared to adults, children can: 1) Be infected with the virus that causes COVID-19; 2) Get sick from COVID-19; and 3) Spread COVID-19 to others.

Children age 5 and over are currently eligible to receive the Pfizer COVID-19 vaccine. Teens 16-17 years old are eligible for Pfizer booster shots.

Why should I get my child/teen vaccinated with the COVID-19 vaccine?

Getting a COVID-19 vaccination:
- Can help protect your child from getting COVID-19.
- Is safe and effective.
  - Vaccines have gone through all required research phases.
  - It will not give your child COVID-19.
- May help prevent spreading COVID-19 to others.
- Can help keep your child from getting seriously sick even if they do get COVID-19.
- Your child can get a COVID-19 vaccine and other vaccines at the same visit (without waiting 14 days between vaccines).

How can I protect my children who are under the age of 5?

- Wear masks in all indoor locations outside of your home.
- Keep at least 6 feet apart from others when outside of your home.
- Avoid large gatherings and activities that make it hard to stay 6 feet away from others.
  - Outdoor activities are safer than indoor activities.
  - If indoors, choose a well-ventilated location.
- Wash hands
- Sanitize high touch areas and materials
- Get everyone in your family who is 5 years or older vaccinated against COVID-19.

Contact your local IHS, tribal, or urban Indian health care facility for more information on getting vaccinated.

Everyone 16 & older is recommended to get a COVID-19 booster.

If you test positive for COVID-19, you may be eligible for monoclonal antibody treatment.

Monoclonal antibodies, available under FDA emergency use authorization, can reduce the chances that at-risk individuals with #COVID19 will get severely ill or need hospitalization. Our website has information on eligibility and a map of providers. https://1.azdhs.gov/3pnZUVX.

If you received Johnson & Johnson, a booster is recommended IF:

☑️ You got your first shot more than 2 months ago

A booster shot is recommended:

- 6 months after your last dose if you received the Moderna or Pfizer vaccine
- 2 months after your initial dose if you received the Johnson & Johnson vaccine

The FDA has approved "mixing and matching," or getting a different vaccine for a booster than your first vaccine series. Some data suggests this might provide better protection.
Booster shots are additional doses of a vaccine that strengthen your existing protection. Since vaccines sometimes provide less protection over time, booster shots make sure you continue to be protected.

Most of us have already received booster doses for other vaccines, such as tetanus and whooping cough, in order to keep our protection strong.

Get your booster dose when you can!

General Purpose
To assist members of the Hualapai Tribe.

General Guidelines
The following guidelines do not recognize common law unions.

The amount of funds “budgeted” for each program listed in these guidelines is finite. Once funds are exhausted, applicants will have to wait until the following calendar year to re-apply. Unused funds are reverted to the Hualapai Tribe and do not carry over.

For all assistance items, the Hualapai Tribe will be the payer of last resort and the applicant must provide proof.

Definitions
“Elderly” is defined as an individual of advanced age; age 62 and over.

“Immediate Family” is defined as parents, grandparents, siblings, spouse and children. An immediate family member also includes a person who was legally adopted through a court of competent jurisdiction or a child placed by Social Services.

“Full-time Student” is a student who is considered a full-time student based on the accredited institution in which they are attending.

“Vocational” is a school for learning a particular trade; cosmetology, welding, truck driving, carpentry, culinary, etc. The definition of a full-time vocational student will depend on the school as some schools are completed in six months, some in six weeks.

“Emergency” is an unforeseeable event such as a fire, flood, earthquake, car accident, etc. Those who are routinely laid off during certain times of the year are not eligible for “emergency” assistance.

Penalties
Individuals who commit one of the following violations will not be eligible for assistance programs described in these guidelines.

- Misrepresentation either intentionally or unintentionally.
- Failing to re-pay a loan.

Tribal members who commit one of the following violations will have their assistance delayed until the violations are corrected:

- Failure to submit original receipts,
- Failure to submit completed forms, requested documentation, etc.

Members Residing off Hualapai Reservation: 1,058
Total Members 2,407

Tribal Member Consideration:
Motion: to adopt Resolution 37-2021; Tribal Membership -2. Second. Motion carried.

2. Policy Arizona – John MacDonald & Hualapai Gaming – Charlene Jackson
Charlene states she has an update for Tribal Council, and would need to be discussed in Executive Session.

Motion: to go into Executive Session at 8:13 am. Motion carried.

Motion: to come out of Executive Session at 9:30 am. Second. Motion carried.

Charlene would like to provide a general update and the success of the Tribe. The State has pass the Gaming Act of 2021, in the legislation approves for a Compact Trust Fund. The Trust Fund is paid by the metro tribes and authorizes payment to the beneficiary tribes, which are broken down into three categories: Category 1) Tribes that do not have transfer agreements or gaming facilities; Category 2) Tribes that have transfer agreements, but do not have gaming facilities; and Category 3) Rural Tribes that are negatively impacted. The State will oversee and administer funds, additionally, Event Wagering was included in the legislation.

After 4.5 years of negotiations with other Tribes and the State, May 21, 2021, the Hualapai Tribe received notification from the State of the approved Hualapai Tribe Gaming Compact. Transfer Agreements that the Tribe has with Salt River Pima-Maricopa Indian Community and the Pascua Yaqui Tribe have been extended, with the same financial provisions will apply. There is an opportunity for the Tribe to apply for Event Wagering. Lastly, the Hualapai Tribe’s Gaming Compact has been extended for another 22-years. CONGRATULATIONS!!

Voting Audit: Tribal Council question if there are other Tribes in Arizona that have indicated their objections/support of the 2020 Voting Audit.
John reports Arizona Tribes have not been showing any mind to the AZ Voting Audit.

Crisis Management Team
Were able to included additional language in the bill, due to COVID the team felt they did not have time to go to the school, in person. The new language in the bill will allow additional time for the team to make in-person observations of the Peach Springs School.
Tribal Council present John MacDonald and Charlene with Pendleton Blankets for their hard work and dedication to the Hualapai Tribe, specifically, assisting the Tribe settle the Tribe’s Gaming Compact.

Ms. Jocelyn Beard is here to share the following information with Tribal Council, and to continue to show support to the Hualapai Tribe.
Announce the upcoming Tribal Consultation/Information Session, which will be held on Tuesday, June 15, 2021, virtually. She extends the invitation for Tribal Council to participate and encourages to invite other tribal departments to participate. There will be three items on the agenda for discussion: Review DES Tribal Government Consultation Policy & Procedure for Input; Development of Federal Fiscal Year 2022 Supplement Nutrition Assistance Program Employment and Training Program; and AIHP Integration Updates.

Approval of agenda
Motion: to approve the agenda, as is. Second. Discussion: concerns of the recent appointments to the Law and Order Committee. Chairman Clarke states he will follow up on the issue. Motion carried.

1. Hualapai Tribal Courts
   Tribal Court Assessment

Ms. Shannon Edwards & Mr. James Lambertus are here to provide an overview of the recent Court Assessment, specifically their findings of the court assessment.

During the COVID-19 Pandemic the Hualapai Tribal Court has been proven to be resilient and innovated; by implementing COVID-19 restrictions and remaining open during the pandemic.

   a) Wellness Court – Establishing a Wellness Court for the Hualapai Community. The team recommends having the Wellness Court established on a more consistent basis, as the Wellness Court is identified in the Hualapai Constitution. Tribal Council brought forth concerns of the Tribe’s difficulty to obtain funding to keep the Wellness Court and its employees.

   1

6/8/21
b) Review the Code and Codify It: They have suggested to have a periodic review of the code and update it as necessary.

c) Draft and Adopt Court Rules: The Hualapai Court does not have a set of Court Rules. They have recommend to establish Court Rules to define civil proceedings.

d) Acquire a New Case Management System: Software formally utilized by the court has been difficult to utilize and maintain, to the extent that the system needs to be replaced. Recommendation to research and obtain software for Case Management.

e) Develop Court Emergency/Security Procedures: The Hualapai Court does not have security personnel who actively monitor the entire court building. Recommend establishing a Security/Emergency plan.

f) Provide Training to Judges and Court Staff: Both Chief Judge and Associate Judge are fairly new to the Tribe’s bench. Recommend establishing a Training Schedule for all judges and court staff; specifically: Court Procedure, Jurisdiction, Wellness Court Issues, Tribal Code Development, Indian Child Welfare, dealing with difficult court users, working with tribal departments, law enforcement, and safety/emergency preparedness.

g) Develop Clerk’s Manual: Due to the courts not having an established Clerk’s Manual, they have recommended establishing such manual to remain consistent and fair to all judges and the public.

h) Upgrade the Court’s Web Page to add Court Dockets and the Code: Due to the Tribe’s webpage being outdated and lack of information on the site; it has been recommended upgrading/update the Tribe’s webpage to include the courts dockets for the week and publish the Tribe’s Law and Order Code on to the webpage.

i) Combine the Judge’s Bench Books: Currently, the court has two bench books one for criminal cases and one for civil cases. They recommend establishing one updated judge’s book, and include procedures that were added during the COVID-19 Pandemic.

j) Repair the Courthouse: This is a repeat from the 2016 Assessment. The Courthouse roof still leaks and the air conditioning system does not work well. Seek federal funding to repair the building.

k) Develop Court Forms Instructions: Currently the forms at the court have little to no detail for instructions. They have recommended to update all forms to have detailed instructions for filling out the forms, to avoid confusion.

l) Consider the Court’s Digital Infrastructure: Due to the Global COVID-19 Pandemic, courts nationwide are learning to interact through teleconferencing and email, which require powerful and secure internet connection. The need to improve the tribe’s overall internet and bandwidth are crucial in order for the court to continue to allow remote appearances for parties and counsel.

m) Draft Lay Advocate Standards: Due to the court not having an established protocol in regards to determine if an advocate is qualified and knowledgeable to represent someone in Tribal Court. Establishing a protocol will ensure clients have sufficient counsel, and to ensure advocates maintain a degree of professional behavior.

n) Update Job Descriptions for all Court Positions: Ensuring job descriptions are updated periodically, will ensure that job duties are updated and maintained.
Create and Implement a Record Storage Protocol: Court files are not properly stored. The court needs to establish a protocol for storing dated files.

Lunch Break 11:42 am
Reconvene at 1:00 pm

2. Hualapai Education and Training Center – Leon Ghahate, Amy Querta, and Lisa Siyuja

GED Program Update – Lisa Siyuja
The program assists adults obtaining their High School Equivalency Diploma (GED)
Goals of the Program: To prepare students to obtain the knowledge and skills necessary to pass the official GED test, and be awarded a High School Equivalency Diploma.
In comparison to the Arizona State statistics, the Hualapai Tribe’s dropout rate is at an all-time high at 72.5%.
GED Graduation Rate 27.5%
Active participants
Average Age of Participants 26-years old
Students by Gender
    Male 46.25%
    Female 53%
Age Range: 17 to 64 years old

GED Graduates by Year:
    2018: 7 graduates
    2019: 13 graduates
    2020: 1 graduate
    2021: 5 graduates

Dropout Prevention Program – Amy Querta
COVID-19 Pandemic struggles: Scaled down the program, provided virtual support, and monitored credit recovery. The program reopened February 6, 2021. Targeted Seniors and Seniors who are struggling to graduate. Began Collaborating with PASS, and WIOA.
Stats: 30% of youth graduate on-time. The average age is 19/20. Lack of parent involvement, and lack of basic computer skills. There are high IEP rates.
Hualapai Tribe’s Dropout rate for 2020 has increased to 80%.
Continue to collaborate with Smart Schools, Kingman High/PASS, Boarding Schools, and the Fort McDowell Tribe.
Amy shares issues that pertain to specific individuals, and how she was able to assist these students.
2021 Graduation Stats: 18 High School Graduates, of those 8 were in the Program. The program contributed to an 80% increase in graduation rates, and 75% of the program’s graduates were at one-time considered “dropouts.”

Diabetic Eye Disease in Hispanics/Latinos

Hispanics/Latinos have high rates of diabetes and are at higher risk for vision loss and blindness from diabetic eye disease.

**What is diabetic eye disease?**

Eye problems that people with diabetes may have. These include—

- **Cataract** (clouding of the lens of the eye).
- **Diabetic retinopathy** (damage to blood vessels in the retina).
- **Glaucoma** (damage to the optic nerve).

**What are the numbers?**

- **1.2 million** Hispanics/Latinos have diabetic retinopathy.
- **95%** of severe vision loss from diabetic retinopathy can be prevented by early detection, timely treatment, and appropriate follow-up.

This number will more than double to **2.9 million by 2030**.

**How can you protect your sight?**

1. There are often no early warning signs of diabetic eye disease so don’t wait until you notice problems with your vision.
2. Get a comprehensive dilated eye exam at least once a year.
3. Keep your health on TRACK:
   - Take your medications.
   - Reach and maintain a healthy weight.
   - Add physical activity to your daily routine.
   - Control your blood sugar, blood pressure, and cholesterol.
   - Kick the smoking habit.
4. Help is available. If you’ve already lost vision, talk to your eye care professional about vision rehabilitation.

Don’t lose sight of Glaucoma

What is glaucoma?
Glucoma is a group of diseases that can harm the optic nerve and cause vision loss or blindness. The optic nerve is a bundle of nerves that carry messages from the eye to the brain. The most common form of glaucoma is primary open-angle, which this informational flyer is about.

What causes glaucoma?
At the front of the eye, there is a small space where clear fluid flows in and out. This clear fluid feeds nearby eye tissue. When the clear fluid flows too slowly, it creates pressure on the optic nerve. This pressure can harm the optic nerve and cause glaucoma and vision loss.

Who is most likely to get glaucoma?
Anyone can get glaucoma, but some people have a higher chance of getting it. People who have a higher chance are African Americans over the age of 40 and anyone over the age of 60 (especially Mexican Americans). If glaucoma runs in your family, you also have a higher chance of getting it.

What are the symptoms of glaucoma?
In its early stages, many times there are no symptoms or pain. As glaucoma gets worse, you may slowly lose your side vision. If it remains untreated, you may miss objects to the side and out of the corner of your eye. It is like looking through a tunnel. Over time, straight-ahead vision may decrease until no vision remains.
How do you know if you have glaucoma?

An eye care professional can tell if you have glaucoma by giving you a comprehensive dilated eye exam. During the exam, drops are placed in your eyes to widen, or dilate, the pupils. Then a special lens is used to look at the optic nerve for damage. After the exam, your close-up vision may be blurry for a period of hours. You may also have a visual field test to check for changes in your side vision.

How can glaucoma be treated?

Glaucoma cannot be cured, but it can be treated to keep it from getting worse. Catching it early is key to protecting your vision. Eye drops and medicine can help your eyes make less fluid or can help drain the fluid from the eye properly. Laser surgery can also make it easier for fluid to leave the eye. Regular surgery can make a new space where the fluid can drain.

What can you do to protect your vision?

Get a comprehensive dilated eye exam at least once every two years. This is more important if you are African American over age 40; are over age 60, especially if you are Mexican American; or have a family history of glaucoma. Finding and treating glaucoma early can help keep the disease from getting worse and reduce your risk of vision loss.

Medicare will help pay for an annual dilated eye exam for some people at high risk for glaucoma. This includes people with diabetes, people with a family history of glaucoma, and African Americans age 50 and older.

### Eye Health & Protecting Your Vision

Approximately 38 Million Americans have common eye diseases such as glaucoma, diabetic retinopathy, age-related macular degeneration, and cataracts.

That's nearly 1 out of 8 Americans. That number is expected to rise to 56 million by the year 2030, making it more important than ever for Americans to get the vision care they need.

### Take a Look at Your Family History

Many eye conditions are hereditary. Talking to family members about their eye health history can help determine if there is a higher risk for developing an eye disease.

### Eat Healthy Foods & Maintain a Healthy Weight

- Dark leafy greens, such as spinach, and fish high in omega-3 fatty acids, such as salmon, can help people protect their vision.

### Quit Smoking or Never Start

**WARNING:** Smoking causes vision loss and blindness. Research has linked smoking to an increased risk of developing age-related macular degeneration, cataracts, and optic nerve damage. Smoking is bad for the eyes and is bad for the rest of the body.

### How to Make Your Vision Last a Lifetime

#### Get a Dilated Eye Exam

- During this procedure, drops are placed in the eyes to widen, or dilate the pupils.

- The back of the eye is examined to look for early signs of eye diseases.

#### Use Protective Eyewear

- Wearing approved safety glasses and goggles, safety shields and eye guards can help prevent eye injury.

- Sunglasses are important for eye care, especially those that block 99 to 100 percent of UV-A and UV-B radiation.

There are just a few steps to get Americans on the path to better vision.

SUMMER IN THE PINES BY LOUISE BENSON

We used to go out in the pines every summer to live with my Grandparents Annie (maiden name Susanyatame) and Frosty Querta. Yes, we had our own Frosty the Snowman (Louise laughs). Frosty had cattle and horses. It was us kids’ responsibility to feed and water the horses. When we brought the feed, they would come running. Cooking on a wood stove is something foreign to the youth of today. Our grandmother showed us how to make bread on the wood stove. She also taught us how, from the hot ashes, to make outside bread. We learned from our grandmother to prepare and cook fry bread and tortillas. We would make wood stove fried potatoes to die for. My grandparents had a small house among the pines but us cousins preferred sleeping outside. My Grandparents had four daughters and four sons, so a lot of the cousins were together for the summer. We spent many nights beneath the stars talking and laughing. We did not have mosquitoes out there but sometimes the bees would come around if we did not cover our food. I spent my summers with Frosty and Annie Querta in the pines called Blue Mountain. It was a wonderful life for a young girl.

SUMMERS IN PARKER WITH GRANDMA BY HERBERT SULLIVAN

My brothers and sisters were all close in age and a close family. When school was out, my parents would take all eight of us siblings to Parker to spend the summer with our grandma. Before school started, they would pick us up. We would do a lot of fishing and swimming in the Colorado River and irrigation canals. The river ran by our house. Later, a road changed the location of the river. We spent all summer bare foot. We would walk everywhere we went. Sometimes as far as from Peach Springs to Truxton (8 miles). At times it would get cool at night. Grandma would heat rocks in the wood stove, rap them in old newspaper and put them at the foot of her bed. I lay on her bed to get warm. There was no electricity back then. We used oil lamps (kerosene) to light the house. We would get up at sunup. At night when the sun went down, we would go to bed. The lamps were not enough to light the whole house. It was a large 3-4-5-bedroom house. It was built on stilts, so we had to climb the stairs to get into the house. Every morning we would get up early and run along the river putting in our fishing lines for carp, catfish, and sometimes bass. We even left them over night for the catfish. We would give our fish to Uncle Ray. He would sell them to the black people and buy us sodas. He then would tell us to catch more fish. We were always willing for sodas. If the irrigation canals were low, we could pick up fish. Being in Parker at our grandma’s was a good time.
Some history about the Establishment of the Hualapai Indian Reservation on January 4, 1883

On January 4, 1883, the Hualapai Indian Reservation was established. The U.S. government set up the reservation system to resolve the conflict between the Hualapai and white settlers. “White settlers began to infiltrate into the Hualapai territories upon the discovery of gold and silver along the lower reaches of the Colorado River” (Indigenous Voices of the Colorado Plateau, Northern Arizona University, 2005)

Since time immemorial, the Hualapai people occupied a vast territory in what is now northwestern Arizona. Before the arrival of white settlers, the Hualapai people occupied a homeland of about seven million acres, from the Colorado River on the north and west, to the Bill Williams River to the south, and the Little Colorado River to the east.

Map of Ancestral Territories (Dawley, 2020)

Through oral tradition, such as storytelling and songs, Hualapai history has prevailed. These songs and stories include the People’s connection to the land and water, with the Colorado River and canyon lands as the sacred. Bertha Russell (circa b. 1907/1917 d. mid-1980s), told a story about La Paz, which included a detailed description of the Hualapai’s ancestral territories.

Along time ago the Hualapai people lived around here. Of all the sites, you know only a few; places like Kingman, Hackberry, Valentine, Peach Springs, Seligman – just these areas you know. There were many, many places. People were living everywhere covering the whole area from one place to the next. In Chloride, Kingman, Hualapai Mountains, down below the Big Sandy all the way up to Williams, and to the natural boundary of the Colorado River all over this land the Hualapai people lived.
The people were happy. They had many relatives living everywhere. They got up in the morning happy. They had families. They made their own homes and took care of their families. A child was taught how to do things, he was told things so that he would have a good life. Their day-to-day livings was good. She goes on to talk about Father Francisco Garcés, a Spanish missionary who came up the Colorado River from the south on June 10, 1776.

But then the Europeans and the Spaniards came to this land. These people were mean. They struck and killed the Hualapais. The Spaniards mistreated the Indians. They kept on killing and attacking the Hualapai. They considered the Hualapais not as human beings or living things. They called us animals. They thought we did not have a mind to know anything. We were a nuisance, they said. All they wanted was our ancestral land.

Finally, she talked about the Hualapai Wars from 1866 to 1870s and U.S. government’s attempt to remove the Hualapai from their homelands.

When the soldiers shot the Hualapais, they said the Indians shot first even though the Indian did not have a gun. The Hualapai just had a bow and arrow. He was taught to use it for getting game to eat and live on. He did not use it to kill or hurt people.

The U.S. military talked of rounding up the people. They did that. They rounded up the Hualapais and took them to Beale Springs the first time; then they took the people and dumped them near the Colorado River.

The Hualapai had leaders and they knew that the military were trying to steal the land. The military kept on attacking and killing off the people.

The people had nothing. They had very few belongings and went down there along with their children. They lived there but were unaccustomed to the land. They longed for their homeland, so they all escaped and returned.
Establishment Day – 1883

This historical account of survival is called Yu’ Nyihay Jamj Vo:jo or the path of tears falling, which recounts the forced march to Camp La Paz. La Paz, Spanish for peace, was a gold mining town established in 1862 before it became a part of the Arizona Territory. Ironically, the town was named in recognition of the feast day for Our Lady of Peace or the Blessed Virgin Mary in the Roman Catholic Church. Today, La Paz (now a ghost town) is the name of one of the fifteen counties in Arizona.

Keep in mind that there are always two accounts of what happened – Hualapai and US government.

History tells us of how the colonists and pilgrims [emigrated] from Europe and settled in the eastern part of the continent, and how they trekked out to the western part of the country. However, it does not always explain in detail how lands were taken, and how the Indians were eventually removed from lands they had inhabited from time immemorial. (Wilfred Whatoname, Sr., p. xiii, We Are An Indian Nation: A History of the Hualapai People (Shepherd, 2010))

The Hualapai version provides a more accurate account because it shows in our Peoples’ determination to survive through perseverance and resilience. It also in evident in the landscape and the artifacts left by white settlement.

In 1881, Pai headmen Schrum, Hualapai Charley, Soskourema, and Cowarrow began discussions about creating a reservation. Previous discussion as early as 1875 took place, but the Indian Office has denied that those early meetings never took place. However, the headmen chose the present day location because it “contained a sizeable stand of timber, and its grazing lands and springs promised to support a new economy of ranching” (Shepherd, p. 56). In 1883, the reservation was established.

The Hualapai Reservation contains three bands: Milkweed Springs, Peach Springs, and Pine Springs. In the eastern region of the reservation contains the Pine Springs and People of the Blue Green Water joint use area also known as the People of the East. The Hackberry band and Big Sandy River band lands also hold reservation lands off of the main reservation.

WE LOVE OUR VOLUNTEERS

“The Peach.”
The Hualapai Nation’s Live and Local Radio Station
Proudly Announces and Congratulates
2021 Volunteers of the Year:
John and Sara Hopkins

John Hopkins and Saraese Begay Hopkins are the newest members of the Peach crew of volunteers! Both are Native American. John is a member of the Narragansett Tribe of Rhode Island and Sara is Navajo. John and Sara have resided in Peach Springs for three years, as Sara works at the school. John and Sara joined full steam ahead with The Peach” in 2020 participating at events and hosting shows. John, aka Huckleberry Hopkins, continues every Wednesday to bring intellect and humor to KWLP in his unique and enjoyable style during The OK Corral. He has added guest co-hosting The Morning Hoedown and voicing advertisements to his repertoire this year. Sara donates her voice to narrate regular segments and stories for the station, as well as her time as an advisory committee member, school media liaison and at events. Both help staff screen music, too. They have been reliable and valuable in their commitment to the station and their assistance to staff, despite other demands and regardless of the pandemic. Both have previous experience in radio. They are a pleasure to work with and an asset to the station and The Community! We wish they’d have found us sooner! They will receive incentives valued at over $500.00 for being Volunteers of the Year!

If you’d like to join the Peach volunteers: Call 769-1110.
