

The work cell that's been listed for direct contact for Animal Control is no longer available. I apologize if you've been trying to call that number in the last week.

If you have animal traffic or inquiries regarding vaccinations, animal pick ups or other information -

Please call our dispatch office at **928-769-2220**; they will relay information to the on duty officer and contact will be made with you.

Thank you for your understanding in this matter.
