

Letter from the Elderly Department

The Peach Springs Community currently is experiencing a significant rise in cases among our elders and broader community. The Hualapai Tribe and the Emergency Response have taken the position of "Self-monitoring". In an effort to allow the Elderly and program participants to better gauge the risk factors for engaging in community events and activities. With the rise in cases among your peers in the 55 and above age group. **We highly encourage you to wear a mask when in public.**

If you are feeling symptomatic get tested. Home test are a good way to check your status. If a positive test is detected on a home test kit, a confirmation test though your medical provider is **HIGHLY** recommended to ensure you get the proper medication and therapeutics.

Isolation and quarantine are still required when a positive test is detected on the Hualapai Reservation.

The program will continue to provide meals to Elders who are positive. We ask you contact the center to inform us of your status so we may take the proper precautions.

Continue to be vigilant and aware of your risk.

Thank you, *Hualapai Elderly Department*
