

ATTENTION!!!

Per Capita distributed to all tribal members is reported to the IRS; therefore, all tribal members will, and have been receiving a 1099-Misc. that should be filed with your taxes.

Hualapai Finance must have a W-9 on file for each tribal member for accurate legal name and social security numbers. In the past, this information has been incorrect, and we have been penalized. This does not pertain to all, but some of our tribal members. We will continue this practice, as proof of our due diligence, for all future Per Capita payouts to avoid any penalization fees from the IRS.

Address changes/updates have also been an issue. Please follow the Enrollment Office's existing protocol for address changes.

Minors do not have to fill out a W-9, as they will not be issued a check. Their money goes into a trust fund until they are of age and meet the requirements to withdraw their funds.

All tribal members on the enrollment list as of November 3, 2023 will be eligible for the 2023 Per Capita payout, but the check will not be released until the W-9 is submitted to Finance.

We apologize for any inconvenience this has caused.
