Do you want to talk about transportation options in Peach Springs?

**Join us on Wednesday, May 8, 2024 @ 11:00 AM to 1:00 PM.**

The Hualapai Planning Department is working with the National Renewable Energy Laboratory and the Land of Clean Skies Clean Cities and Communities Coalition to better understand what the future of clean transportation could look like in Peach Springs. The team is eager to learn from you! We will talk about how transportation has changed throughout the years and ask about your idea and priorities for the community.
